PREFACE

Astrology is a science. The mysterious attractions hidden in the Solar System which Maḥarashis and the human beings have so long endeavoured to interpret, are known as the science of Astrology. It is the opinion of all the astrologers that any movement and action of human-being are influenced by the attractions of the Solar System. If this is accepted, then the scientists must step out to recognize and study the science of astrology further.

Even though, man is not God, he is God's creation i. e. His child. If we, God's children, achieve even 30% of our Lord's power through the science of astrology, we shall be acknowledged as modern scientists who can see past, present and future. By reading birth charts based on the principles of astrology given in these books, even an ordinary man would get high honour from the public.

Astrology is a holy, pure and precious science. But today there is so much prejudice, superstition and cheating in the name of this science of astrology, that words are not enough to describe it. Science of Astrology is misused not only by dishonest and ignorant persons but also by the learned class. It is really a pity. Public has begun to contempt and redicule astrology and its predictions. At such crucial time, we have tried our best to render service to Astrology by giving new birth to the hidden mysterious knowledge of astrology and tried to prove its correctness with new refinement for the benefit of the readers and public. After a long, constant labour of three solid years, we have been able to publish these books. we hope that every reader by going through these books, would realize the great power and truthfulness of astrology. In short, these books will be real guide and will serve as a torch to the astrologers.

It is said that truth is always bitter. Accordingly some of our principles would at first glance create an impression on the readers that we are proud. But truth will always remain truth and one can not reject or avoid it whether one likes it or not. It is our humble opinion that these books, 'A Book of Astrological Correct Predictions' are entirely-scientific and based on correct principles of Astrology.

The construction of these books are entirely scientific and orginal, far away from translations or repetitions from old books as one finds in many of the astrological books. The purpose of these books is to render true service to astrology. There is not the slightest attempt to intoxicate the readers and lead them away from truth by mere figures of speech.

Our deep study of Astrology is by a strange incident in our early life. Not having been satisfied with Palmistry, we approached a friend to know something about astrology. Being a vain person he insulted us instead of helping us. This touched off our pride and hence we bought various books regarding this science of Moving Zodiac and Fixed Zodiac and went through them minutely. By experience it was found that formulas given in these books were away from the actual happenings. After many years of "Search for Truth" we evolved sevaral formulas, based on fundamental principles of Astrology. Later on the predictions given according to those formulas were remarkably correct. Words of appreciation poured in abundance from the friend's circle and they insisted that we should put forward these precious principles in the form of books. Today we feel happy when we see these books in the hands of the readers.

The arrangements of these books is entirely new and original, keeping in mind the modern age. At first glance some of the readers would hesitate or dislike to read them as they are in the habit of reading mere translations, while to others it will give enlightenment, stimulation and hope.

× × ×

Today many astrologers consider this valuable knowledge as a private property and inheritance from their fore-fathers, believing blindly that if the knowledge is shared with others they would starve to death. Great harm and disservice is done to the science of astrology by such short-sighted persons. This is one of the reasons which has brought discredit to and lessened the importance of astrology. Any person or an astrologer who discovers certain new principles should consider to be his duty to put forward new principles for the benefit of the readers and the public. If we put forward our knowledge of accurate and correct predictions to the world, Indian Astrology would surely secure a high place. With this intention, we have disclosed our Secret Knowledge, for the benefit of the readers. We sincerely hope that they would value and appreciate it.

So far, in this knowledge, we have preserved our credit and fame in the world. It is a misfortune that some of the Indian Astrologers are directing their attention towards West, deserting the great invaluable knowledge of the East. In such critical situation we think it quite essential to publish English Edition of our books on Astrology in order to enhance its credit in the world.

We are also sincerely thankful to Mr. Ishwarlal H. Reshamwala and Mr. Pritamlal L. Shah for the special zeal they have shown in the publication of these books. Without their help and guidance the work would never have been completed.

Lastly, we are also grateful to those persons whose horoscopes have been taken in these books. Readers are requested to draw out attention if there is a mistake or omission so that it can be corrected in the new edition.

14. There are many planets and sub-planets in the Solar System according to the views of great Astrologers; but the natives of the earth are affected only by the seven planets, is also agreed to by the author.

15. When a man is in trouble or often gets failure in his undertakings, he approaches the Astrologer to find the cause and the Astrologer instead of guiding him on the correct path, i.e. worship of God, leads him on the wrong track, saying all sorts of nonsense. Remember faith and worship of God is the only instrument of strength to fight against Nature and his adverse circumstances. And as the time passes he gradually overcomes his difficulties and later on achieves happiness. This is the only best way for them.

16. The result of predictions in Astrology are the most important and it is necessary to memorize the nature of signs and planets and the given period (time) of benefic or malefic planets.

17. The readings of the illustrative horoscopes should only be done after observing properly and understanding the given principles.

18. The author does not wish to say any thing on the constructions of this book, but only the beliefs of truth he has published.

19. The knowledge presented in these books are such that if the reader just skips the pages without digesting its principles properly, he would not be able to grasp its knowledge as required. Only one chapter of each subject should be read in a day in order to follow the subjects properly and to get better results.

A BOOK OF CORRECT ASTROLOGICAL PREDICTIONS

(Part One : Principle Section)

CHAPTER FIRST

The importance of Astrology in the human's ups and downs

What is the Science of Astrology ? Why human beings are so much interested in its study ? They think that there is some power, that plays an important part in shaping their lives. One is born in a village, while another in a city ! One is born with a silver spoon in his mouth while another at a beggar's hut ! One achieves best married happiness and another exerts in vain to get it ! One gets parental affection and happiness, while another is orphan ! One resides in a big mansion with cars, while another has no house even for shelter ! One is constantly dependent on madicines, while another never sees the face of a doctor ! What are all these miracles ? How far human beings can make alterations in these situations ? It proves that the unknown, mysterious power that lies in Nature is the main and fundamental causes of all these. Then what is these unknown, mysterious power ? How far man can achieve its knowledge and know its mystery ? Which are the sources and ways to obtain this knowledge ?

The answer is : —— the Science of Astrology !

Tides and ebbs are caused in the sea, why ? People enjoy in the moon light and feel refreshed, while on dark nights they prefer to stay in the house, rather than going out, why ? When one is exposed to midday summer Sun, his brain feels tired and exhausted and looks for the cool shelter, why ?

On the other side when a man is born, until his death, he builds his life stage by stage. He uses one step of success to reach still higher step and goes on progressing. Side by side he is watchful whether his life will be like a solid strong wall or just collapse, i. e. whether he would succeed or end in failure. As the whole life and prosperity and hope is based on this foundation and construction. If one of the bricks is wrongy placed or weak i. e. if he sees any defects in his enterprise and attempts, he feels uneasy and is forced to approach to take advice from the scientist–the Astrologer !

One would hardly find a man who is not so desirous to know his advancement, prosperity and future; and if there is one, he must be mad.

Man is always progressing step by step. It is his utmost desire, intention to know whether he would succeed or fail in his undertakings. To classify all these facts and reasons, the ancient saints started to master the scientific study of the Solar System and its effects on the human beings, and after lot of labour, great research and observations, discovered certain unknown truth of the Solar System. These unknown truth means the principles of Astrology, which is considered to be one of the most invaluable discovery.

Stars are of various type. Some are constellation, some planets and some sub-planets. These constellations, planets and sub-planets move in the sky due to the force of gravitation.

The force of gravitation exerted by innumerable stars on the Solar System is known as 'Signs.' These signs have their own characteristics, influence, business and occupation. The planets of the Solar System are called, the Earth, Moon, Mars, Mercury, Jupiter, Venus and Saturn and have their own characteristics, effect, influence, business and occupation. This is the second great discovery of the ancient saints.

The Sun is a star. Some of the separated parts of the Sun became planets and are known as the Earth, Moon, Mars, Mercury, Jupiter, Venus and Saturn. These planets due to the force of gravitation, constantly, regularly move round the Sun. The earth take 365 days to complete one circle, Mercury 88 days, Jupiter 12 years, while Saturn requires 30 years to complete the circle etc.

One of the separated sub-planet from the earth is called the Moon. The Moon moves round the earth constantly and regularly due to gravitation.

What is this gravitation and what is its meaning ? How and what effects are caused by this gravitation on human beings, animals, water and vegetations ?

Our·ancient saints had deeply studied the effects of this gravitation on the human life. In short, this is all Science, which is known as the Science of Astrology.

Ancients began to study the Solar System. After a constant study and observation of the Solar path, they discovered 12 types of effects so they divided Solar Path into 12 equal parts and found out certain kinds of effect of this part which is caused over the humanbeings' nature, influence, personality, business and occupations; which is in short called 'sign' and its nature, influence, personality, business and occupations.

In the same way they studied the gravitational force of the planets and found out their effect, influence, business and occupation caused on the human beings.

The human leads his own life by the influence of the gravitational force of the Solar System. He marches forward with the hopes or despairs, whether good or bad. To summarize, all the problems and occessions of the human life are entirely based on the gravitational forces of Signs and Planets. As the Solar System as well as planets are constantly moving, one particular moment is not similar to others. Hence natives born at different moments and at different places have different lives, and what effect is caused on the humanbeings is known only by the Scientist–the Astrologer. This moment means birth chart or the Decree of Fate.

It is possible to know the secret, insoluble problems which beset men through only one instrument, the Science of Astrology, which is also called the hidden secrets of God.

Now we shall study the precious knowledge of Astrology, most useful for the human beings discovered by our ancient saints and learned persons and also achieve the knowledge of the principles of the signs and planets and the primary idea of casting a horoscope.

CHAPTER SECOND

The knowledge of the Signs

The sky is divided into twelve parts according to the principles of Astrology. Each divided part is known as 'Sign.' The names of the 12 Signs are as follows :

No. of the Sign.	Name of the Sign.	Deg. to Deg.
1.	Aries	0 to 30
2.	Taurus	31 to 60
3.	Gemini	61 to 93
4.	Cancer	91 to 120
5.	Leo	121 to 150
6.	Virgo	151 to 180
7.	Libra	181 to 210
8.	Scorpio	211 to 248
9.	Sagittarius	241 to 270
10.	Capricorn	271 to 300
11.	Aquarius	301 to 330
12.	Pisces	331 to 360

Each Sign is considered to be of 30 degrees. The sky has 360 degrees, is divided into 12 equal parts, making each 30 degrees for every Sign. This divided part is called 'Sign.'

CHAPTER THIRD

Signs and their lords

Just as each sign has its own special characteristics, influence, effects, dwelling places, business or occupations; so has each planet. The planet whose characteristics etc. is similar to certain sign or signs is called the ruler or the lord of that sign or signs. To understand this clearly, each sign has been imagined as a 'House' and particular planet is imagined as 'lord of that house.'

The Sun and the Moon each rules one sign, while the rest of the planets rule two signs each, as follows :

Aries is the House of Mars.
Taurus is the House of Venus.
Gemini is the House of Mercury.
Cancer is the House of the Moon.
Leo is the House of the Sun.
Virgo is the House of Mercury.
Libra is the House of Venus.
Scorpio is the House of Mars.
Sagittarius is the House of Jupiter.
Capricorn is the House of Saturn.
Aquarius is the House of Saturn.
Pisces is the House of Jupiter.

Thus Aries is the house of Mars and therefore Mars is called the ruler or lord of the sign Aries,

i. e. the characteristics, influence, effects of Aries are similar to those of Mars.

CHAPTER FOURTH

Twelve types of Birth Chart

The illustrations given below are known as Birth Chart or Horoscope. In the First House, which represents the Eastern horizon at the time of birth of an individual, is called the Ascendant and is generally indicated by the letter 'Asc.'. In the first birth chart, the ascendant is of 1 i. e. Aries. In the second birth chart, the ascendant is of 2 i. e. Taurus. In the third birth chart, ascendant is of 3 i. e. Gemini etc.

When a man is born, any one out of these twelve birth charts applies to him.

Now, as we see the Sun rising in the eastern horizon, in the same way, when a certain man was born at a particular time, the first birth chart i. e. Aries ascendant indicates that the Aries sign was rising at that time. In the same way, the second birth chart indicates the same meaning, i. e. when the man was born, the sign Taurus was rising in the eastern horizon; in the third birth chart, the sign Gemini was rising in the eastern horizon etc.

Birth Chart and Houses.

As birth chart have signs, so have the houses. The First house of the birth chart indicates Eastern horizon. The other house viz second house third house etc. follow in regular order.

The 10th house which is overhead, is called the Zenith, the 7th house represents the Western horizon, while the 4th house is called the Nadir. The point where the Sun rises in the east is called Ascendant or the 1st house; the Sun is in the 10th house at noon, it is in the 7th house when it sets, and it reaches the 4th house at the local midnight.

The half portion of the chart on the right side is called the visible hemisphere; that on the left is called the invisible hemisphere. Though the ecliptic or the path of the Sun is circular in the heaven, the chart are often drawn in square forms for the sake of convenience.

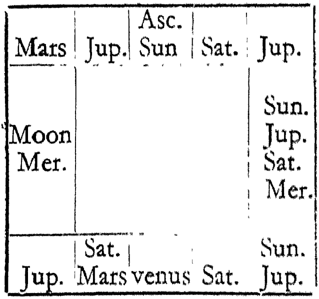
CHAPTER EIGHTH

Planets, the Significators of the houses.

Just as each house is Significator of some particular aspect of human life, each planet is also Significtor of some aspect of human life. The Sun is the Significator of the 1st house. Briefly the Sun is the Significator of body, mind and soul. Here the sun is called significator of the 1st house and not the lord of the 1st house. In the same way Jupiter is Significator of the 2nd house, Mars of the 3rd house etc.



Important hint : Mars in the 6th house gives benefic result and is the destroyer of diseases and enemies, while Saturn is the creater of diseases and enemies, is to be understood. If Saturn is in the 8th house, then the difficulties would arise concerning the longevity, is also to be understood.

The Sun is the Significator of the 1st house, of body, mind and soul. He is benefic.

Jupiter is the Significator of the 2nd house, destroyer of worries of the family concerns and wealth. He is benefic.

Mars is the Significator of the 3rd house, of adventure, enterprise, valour, foreign travel and brotherly happiness. He is benefic.

The Moon and Mercury are the Significators of the 4th house i. e. house of vehicle, estate, transfer and peace. They are benefic.

Jupiter is the Significator of the 5th house, of education and children. He is benefic.

Mars and Saturn are the Significators of the 6th house; Mars is the destroyer of diseases, enemies (benefic) while Saturn increases disease, enemies. (Malefic).

Venus is the Significator of the 7th house, of married love. He is benefic.

Saturn is the Significator of the 8th house, indicator of death. He is malefic.

The Sun and Jupiter are the Significators of the 9th house, of fortune and wealth. They are benefic.

Jupiter, Sun, Mercury and Saturn are the Significators of the 10th house, of position, honour, power, fame and fatherly happiness.

Jupiter, Sun, Mercury are benefic, while Saturn is malefic and hence creates worries regarding position, honour, power, fame and fatherly happiness.

Jupiter is the Significator of the 11th house and the destroyer of worries regarding income. He is benefic.

Saturn is the Significator of the 12th house, of loss, debt, expenditure, insolvency. He is malefic.

Saturn is the Significator of the 6th, 8th and 12th house. These three houses are the indicator of the human miseries and sorrows; creator of diseases and enemies. Saturn manifests the lord of death and is the indicator of loss, unnecessary expenditure, reduction in position, honour, power, fame and fatherly happiness.

For any result the attention should be paid to three particulars; i. e. house, lord of the house and the significator of the house. We can know the result of any house by concentrating on these three particulars. If one out of these three particulars is missed, then the result would be inaccurate. For instance, the Moon is the Significator of the 4th house and if the Moon is related with the 4th house, then the native gets beautiful house with vehicle, even though the lord of the 4th house may be weak. So if we miss to concentrate on this, then we shall not be able to give the correct prediction.

For the question of becoming rich, we should refer to the 9th house, lord of the 9th house and the Significators of the 9th house viz. The Sun and Jupiter. The position of the Sun, Jupiter in the birth chart should also be observed.

For the question of position, power etc. we should refer to the 10th house, its lord and the Significators Sun, Jupiter, Mercury and Saturn.

Of which particulars the planets are Significator?

Sun : The Significator of body, mind, soul, fortune, honour, power, fame and fatherly happiness.

Moon : The Significator of house, vehicle, estate, motherly happiness and peace etc.

Mars : The Significator of adventure, enterprise, valour, foreign travel, brotherly happiness and the destroyer of diseases and enemies.

Mercury : The Significator of house, estate, vehicle, peace, position, power, honour, fame, motherly and fatherly happiness.

Jupiter : The Significator of education, son, fortune, wealth, honour, power, position, fame and fatherly happiness and the destroyer of worries of family, wealth and income.

Venus : The Significator of married love.

Saturn : The Significator of diseases, enemies, death, loss, debt, insolvency, unneccessary expenditure and gainer of (illegal) position, honour and power and its cancellation and the destroyer of fatherly happiness.

CHAPTER NINTH

Planets and exalted and debilitated signs.

The planets given below are powerful in the exalted signs and weak in the debilitated signs. In any horoscope, the planet of exalted sign gives benefic result of the house in which it is situated as well as its own house. The planet of debilitated sign gives weak result in the house in which it is situated and in its own house. The debilitated planets are considered to be weak.

	Sun	Moon	Mars	Mer.	Jup.	Venus	Sat.
Exalted Sign (powerful)	Aries	Taurus	Capricorn	Virgo	Cancer	Pisces	Libra
Debilitated Sign (weak)	Libra	Scorpio	Cancer	Pisces	Capricorn	Virgo	Aries

Example : In any horoscope, if the Sun is in the Aries sign, then he is considered to be powerful; and if in Libra sign, he is considered to be weak. The same interpretation applies in case of rest of the planets.

CHAPTER TENTH

Planets : Direct and Retrograde Motion

Except the Sun and the Moon, other planets do not have one–directional motion. Sometimes they go forward and some–times backward. (The particulars are given in all the ephemeris).

Direct Planet : The planet that moves forward. (This is written in ephemeris).

Retrograde Planet : The planet that moves backward. (This is written in ephemeris).

If Mars and Saturn are direct, they are considered to be powerful and if retrograde, they are more powerful. Direct Jupiter, Venus, Mercury are powerful, but if retrograde they are weak.

The Sun and the Moon are always direct and powerful.

●

CHAPTER ELEVENTH

Planets : Rise and Combust

The planet which is combust (covered by Sun's orb) gives the result of the Sun. Which planet is rise or combust, can be known by reading the ephemeris.

The planet which is not combust should be considered as rise.

Rise Planet : The planet which is seen at night in the sky, is known as rise planet.

Combust Planet : Generally planets combust as follows :—

Moon : remains combust (about) 12 degrees forward or backward from the Sun.

Mars : remains combust (about) 17 degrees forward or backward from the Sun.

Mercury : remains combust (about) 13 degrees forward or backward from the Sun; if retrograde (about) 12 degrees forward or backward from the Sun.

Jupiter : remains combust (about) 11 degrees forward or backward from the Sun.

Venus : remains combust (about) 9 degrees forward or backward from the Sun; if retrograde (about) 8 degrees forward or backward from the Sun.

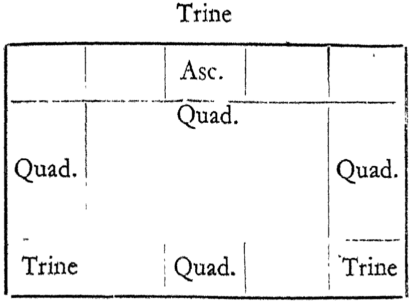
Saturn : remains combust (about) 15 degrees forward or backward from the Sun.

●

CHAPTER TWELFTH

Quadrants and Trines

The 1st, 4th, 7th and 10th houses of any horoscope are called quadrants. These houses are known for the humans advancement progress and benefic. They are powerful. The 10th house is considered to be most powerful. But according to our experience the 5th and the 9th houses seem to be more powerful.



The 1st, 5th and the 9th houses of any horoscope are called trines. These houses are very powerful and are known for the human beings advancement, progress and benefic.

Some astrologers believe quadrants to be more powerful and trines to be less powerful; but as per our experience and opinion trines are more powerful, as they are the foundation-stone of the man's advancement, progress. From the 1st house, body, mind and soul and 5th house knowledge and education and fortune from the 9th are known. Not involving ourselves in the difference of opinion and criticism, we should also consider that the trines are powerful.

It should be noted that the 1st house is of trine as well as of quadrant; which is the most powerful in the horoscope.

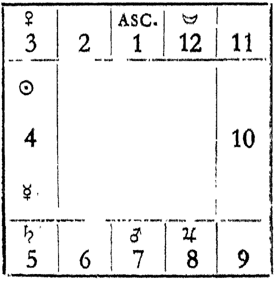
CHAPTER THIRTEENTH

Planets and Aspects

The planet gives result not only of its own house but also of the house of whom the planet is the Significator and the house with which it is connected by conjunction, opposition or aspect.

Aspect of the planet means vibrations of the planet. For instance, if Jupiter aspects the 5th house, it means that the vibrations of Jupiter have been transmitted in the 5th house. Each planet through its aspect creates effect in the house according to its nature. The aspect of planet is considered to be the most important part in the matter of prediction.

All the planets send their vibrations in the 7th house; means they aspect the 7th house and create effect according to their nature. Additionally, Saturn aspects the 3rd and the 10th house, Mars aspects the 4th and the 8th house and Jupiter aspects the 5th and the 9th house and create effect according to their nature.



Example : In the given horoscope, the Moon of Pisces aspects the 6th house and sends her vibrations and creates her effect according to her nature. In the same way, Venus of Gemini aspects the 9th house, the Sun and Mercury of Cancer aspects the 10th house and Saturn of Leo aspects the 7th house (3rd aspect), 11th house (7th aspect) and the 2nd house (10th aspect). Jupiter of Scorpio aspects 12th house, (5th aspect) 2nd house (7th aspect) and the 4th house (9th aspect) and Mars of Libra aspects 10th house (4th aspect) 1st house (7th aspect) and 2nd house (8th aspect) and creates the effects according to their own nature and position.

In this horoscope the Moon, Venus, Mercury, the Sun and Mars do not aspect any planets, but Saturn aspects Mars by 3rd and Jupiter aspects Moon by 5th, Mercury and the Sun by 9th i. e. Mars is aspected one-sided by Saturn and Mercury and the Sun are aspected one-sided by Jupiter.

How the relation of any planet is created with other planets and houses ?

Conjunction : If two planets are situated in one house it is called conjunction. In the above horosocope, there is conjunction of the Sun and Mercury in Cancer i. e. the Sun and Mercury are related to each other.

Opposition : If two planets aspect each other it is called opposition. In the above horoscope, if the Moon in Pisces had been in Aquarius, then it would have been called the opposition of the Moon and Saturn.

In the above horoscope following relations are caused which are very important and should be understood properly.

In the above horoscope Jupiter aspects the Moon i. e Jupiter and the Moon are related; in the same way Jupiter is related with the Sun, Mercury and Saturn with Mars.

Jupiter has aspected the Sun, the Moon and Mercury. It means that Jupiter has created the effect in the 5th house whose lord is the Sun and 4th house whose lord is the Moon and 3rd and the 6th house whose lord is Mercury.

Moreover, Jupiter has aspected the Moon and the Moon aspects the 6th house, so the effects of vibrations of Jupiter are sent in the 6th house through the Moon. In the same way Jupiter aspects the 10th house through the Sun and Mercury.

Jupiter aspects the Moon, i. e. Jupiter creates an effect in those houses whose lord or the significator is the Moon. In the same way Jupiter aspects the Sun and Mercury, i. e. Jupiter creates effect in those houses whose lord and the significator is the Sun or Mercury. In the above horoscope the Sun is the lord of the 5th house and significator of 1st, 9th and 10th house; and Mercury is the lord of 3rd and 6th house and the significator of the 4th and the 10th house. So the Jupiter has effect on 1st, 3rd, 4th, 5th, 6th, 9th and the 10th house respectively.

Moreover, it should also be noted in the horoscope that Jupiter has aspected the Moon, the Sun and Mercury, but Jupiter is not aspected by the Sun, the Moon and Mercury.

Here the Sun, the Moon and Mercury are dependent or under control of Jupiter. In short, it is said that the Sun, the Moon and Mercury are aspected one-sided by Jupiter.

In the same way please observe the position of Saturn and Mars. Saturn aspects Mars but Mars does not aspect Saturn. Here Mars is captured or under control of Saturn. Saturn is independent, free, while Mars is dependent. In short it is said that Mars is aspected one-sided by Saturn.

What is the effect of the planet which aspects ?

The aspect of planet is considered to be powerful. For instance, Venus which is in the 1st house wants to create his own effect according to his nature in the 1st house, but if Jupiter from the 7th house aspects Venus in the 1st house, the effect of Venus is cancelled by Jupiter in the 1st house; while Jupiter in the 7th house wants to create his own effect in the 7th house but Venus from the 1st house aspects Jupiter in the 7th house, therefore the effect of Jupiter is cancelled by Venus in the 7th house.

CHAPTER FOURTEENTH

The natural friendship of the planets.

Planet	Friends	Neutrals	Enemies
Sun	Moon, Mars, Jupiter.	Mercury	Venus, Saturn
Moon	Sun, Mercury	Mars, Jupiter, Venus, Sat.	-
Mars	Sun, Moon, Jupiter.	Venus, Saturn.	Mercury
Mercury	Sun, Venus.	Mars, Jupiter, Saturn.	Moon
Jupiter	Sun, Moon, Mars.	Saturn	Mercury, Venus.
Venus	Mercury, Saturn	Mars, Jupiter.	Sun, Moon
Saturn	Mercury, Venus.	Jupiter	Sun, Moon, Mars.

1. The above table is given to observe the friends, neutrals and enemies of the lord of the ascendant. If the friends of the lord of the ascendant are in favour i. e. benefic, they would convey powerful result and if they are malefic, the proportion of the malefic result would be ordinary. The planets which are enemies of the lord of the ascendant and if benefic, then the proportion of the benefic result would be ordinary and if malefic, the proportion of the malefic result would be powerful.

2. In any birth chart, if a planet is in its own house or in his friend's house, then the native experiences pleasure and happiness of that planet's houses as well as of the related houses by that planet. While if a planet is in his enemy's house, even though it may not be in 6th, 8th or 12th house, is called weak. So the native would not acquire pleasure and happiness of its own houses as well as of the related houses by that planet.

3. Looking to the table of natural friendship of the planets, the Sun, the Moon, Mars and Jupiter are in the group of Gods and Mercury, Venus and Saturn are in the group of devils. Gods are victorious while devils are defeated ones.

4. According to the above table, the Moon has no enemy. as she is favoured by all the planets with the result that she plays an important part in prediction. Jupiter is not the enemy of any planet and non-revengeful. He always gives beneficial results in every house.

CHAPTER FIFTEENTH

Birth Chart and the malefic planets

There are twelve houses in a birth chart. The 6th house is of diseases and enemies, 8th of longevity and 12th house of worries of loss debt, expenditure and interest. The whole miseries and unhappiness of the human life depends upon the lords of the 6th 8th and the 12th houses and on Saturn, the Significator of these houses. Here the position of malefic planet (planet which is the lord of the 6th, 8th or the 12th house and not being the lord of any quadrant or trine, i. e. of 1st, 4th, 5th, 7th, 9th or the 10th house) and Saturn is to be considered. It becomes necessary to know the malefic planets of every ascendant.

Saturn is always malefic, even though he may be a lord of any quandrant or trine; for he is the Significator of the 6th, 8th and the 12th house. He is the lord of death and one cannot expect beneficial result from him. On the contrary his nature is to create difficulties and worries in human life, and harass and kill men. On this principle, the following planets are benefic and malefic in each ascendant.

Asc.	Benefic Planets	Malefic Planets.	Powerful Melefic Planets.
Aries	Sun, Moon, Mars, Jupiter, Venus.	Mercury, Saturn	—
Taurus	Sun, Moon, Mars, Mercury, Jupiter, Venus.	Saturn	—
Gemini	Sun, Moon, Mercury, Jupiter, Venus, Saturn.	Mars	—
Cancer	Sun, Moon, Mars, Jupiter, Venus.	Mercury	Saturn
Leo	Sun, Mars, Mercury, Venus, Jupiter.	Moon	Saturn
Virgo	Moon, Mercury. Venus, Jupiter, Saturn.	Sun, Mars	—
Libra	Sun, Moon, Mars, Mercury, Venus, Saturn.	Saturn	—
Scorpio	Sun, Moon, Mars, Jupiter, Venus.	Mercury, Saturn	—
Sagittarius.	Sun, Mars, Mercury, Jupiter.	Moon, Venus, Saturn	—
Capricorn.	Moon, Mars, Mercury, Jupiter, Venus.	Sun, Saturn	—
Aquarius.	Sun, Mars, Marcury, Jupiter, Venus.	Moon,	Saturn
Pisces	Moon, Mars, Mercury, Jupiter.	Sun, Venus	Saturn

Notes :

1. Mars is malefic in Gemini and Virgo ascendants, hence Saturn is acting as benefic in these two ascendants. When Mars is benefic, Saturn is malefic and when Mars is malefic Saturn is benefic. On this principle, Saturn becomes benefic in the above mentioned Gemini and Virgo ascendants.

2. Saturn is benefic in Gemini and Virgo ascendants, but being an impotent, he is unable to give benefic result in the matter of married love and children.

3. It should be noted that Saturn is powerful malefic in Cancer, Leo, Aquarius and Pisces ascendants, for he is the lord of the 6th, 8th or 12th house in these ascendants.

4. Any planet who is the lord of quadrant or trine and also the lord of the 6th, 8th or 12th house is considered to be benefic and if this planet is in conjunction, opposition or aspect by Saturn or if it is in Capricorn or Aquarius sign (houses of Saturn) then this planet cannot give powerful result, i. e. it is a weak benefic.

5. Saturn is the significator of the 6th, 8th and 12th houses, i. e. the Significator of diseases, enemies death, longevity, loss, debt, insolvency, interest and expenditure worries. He is the lord of death and

devil and hence cannot give benefic result. But he has got one speciality, i. e. gigantic capacity. One can get and make use of this gigantic capacity when Saturn is aspected one-sided by benefic planets in his horoscope.

5. The following is the method to know the benefic or malefic effect of the planets.

☊ 3	☽ 2	ASC. 1	♄ 12	11
4	imagined			10
♃ 5	6	♂ 7	♀ 8	☉ ☿ ☋ 9

(Mercury is combust in this horoscope and rest of the planets are between 2 to 27 degrees). The given birth chart is of Aries ascendant, hence Mercury and Saturn are malefic planets in this birth chart as stated above.

Here malefic Mercury is combust by benefic Sun, so the cancellation of the malefic combination is caused.

The Sun, the Moon and Mercury are aspected one-sided by malefic Saturn which tries to make them Malefic; but Mars has aspected or supported the Moon and Jupiter has aspected or supported the Sun and Mercury, hence Saturn cannot make them malefic.

In the above horoscope, the Sun, the Moon, Mars, Mercury, Jupiter and Venus are benefic and Saturn is malefic.

Now following is the method to find out the effect of houses of each planet. Each planet creates its own effect by four ways in the houses. (1) The house of which it is the lord, (2) The house of which it is the Significator, (3) The house in which it is situated and the house in which it aspects and (4) The planet related with the houses, with whom it is in conjunction or opposition or aspect.

According to this method, the following planets give the benefic or malefic results of the houses in this horoscope.

Planets	Houses	Benefic or Malefic ?
Sun	1, 3, 4, 5, 6, 9, 10	Benefic
Moon	2, 4, 7, 8	Benefic
Mars	1, 2, 3, 4, 6, 7, 8, 10	Benefic
Mercury	1, 3, 4, 5, 6, 9, 10	Benefic
Jupiter	1, 2, 3, 4, 5. 6, 9, 10, 11, 12	Benefic
Venus	2, 4, 7, 8	Benefic
Saturn	1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Malefic

CHAPTER SIXTEENTH

Planets : Powerful, weak or ineffective ?

The planets are powerful, weak or ineffective at different times. Hence it becomes essential to know whether a planet is powerful, weak or ineffective, even though it may be benefic, at the time of birth.

1. A planet of 0 or 29 degrees in a horoscope is called 'ineffective'. Such planet is called 'ineffective', i. e. it has no effect and cannot form combination. If this ineffective planet is benefic, it is not able to give benefic result to its own house or houses or to the houses of which it is a Significator; and if malefic, it fails to give malefic resulst to its own house or houses and the houses of which it is a Significator.
2. A planet which is debilitated in any birth chart is called 'weak'. This weak debilitated planet, whether benefic or malefic, cannot give sufficient result, i. e. if malefic planet is debilitated, the native gets less malefic result. Please not that the debilitated planets have aspects, can form combinations and have weak effect.
3. Mercury, Jupiter and Venus are considered to be weak when retrograde. At that time they cannot give sufficient benefic or malefic result.
4. Any benefic planet (except Mars) when placed in the 6th, 8th or 12th house, cannot give benefic

result to its own houses as required. So the planet who is lord or the Significator of particular houses, cannot give benefic result as required if it is in the 6th, 8th or 12th house. Mars in the 6th, 8th or 12th house is considered to be powerful, while other planets (except Saturn) are considered to be weak.

5. Each planet is considered to be weak if it is in the house of its enemy, which gives weak benefic or malefic result
6. Any planet in the Saturn's sign of Capricorn or Aquarius is considered to be related with Saturn; so in this way any benefic planet (without Mars) in Capricorn or Aquarius sign, becomes defective.
7. If the Sun, the Moon, Mercury, Jupiter, Venus are of 28 or 1 degree, they are considered to be weak, whereas Mars and Saturn of 28 or 1 degree are considered to be powerful.
8. Saturn and Mars of 1 to 28 degrees and the Sun and the Moon, Mercury, Jupiter and Venus of 2 to 27 degrees are considered to be powerful.

Saturn is the lord of devils. He is the significator of enimies, death, worries etc. So if he is weak, (except Gemini or Virgo ascendants) he is considered to be less troublesome, i. e. this weak Saturn keeps the native away form enemies, worries of debt and death. If Saturn is of 0 degree or debilitated in any birth chart (of Aries sign), the native experiences non-stop progress and prosperity and hardly has to face any difficulties in life.

Or if Saturn is combust except in Virgo, Capricorn and Pisces ascendants or aspected one-sided by Mars or Jupiter, Saturn is considered as dependent and the native of such Saturn reaches the peak of progress and prosperity. (Saturn is giant, and a huge producer). Here the gigantic capacity of Saturn supports the native to undertake huge work with success.

Please remember that a weak or dependent condition of Saturn (except Gemini or Virgo ascendant) is good for the progress and prosperity of a native, while the powerful condition of Saturn brings difficulties, miseries and downfall to a native.

An easy prosperity through a weak malefic planet.

A man experiences non-stop progress and prosperity if a malefic planet is weak in his birth chart. For instance, Mercury and Saturn are the malefic planets in Aries ascendant, and if these two malefics are of debilitated or of '0' degree or if they are aspected one-sided by Mars or Jupiter, then these malefic planets cannot give malefic results i. e. a man can achieve non-stop prosgress and prosperity.

It should be noted that if these weak Mercury and Saturn are in the 6th, 8th or 12th house, they become powerful planets, hence a man would not be able to achieve non-stop progress and prosperity, but on the contrary he has to face difficulties due to the results of these powerful malefic planets.

Exalted malefic planet does not give malefic result.

If a malefic planet is exalted in a native's birth chart, as for example, the Sun in Aries, the Moon in Taurus and Mars in Capricorn, they donot give malefic result. Exalted malefic planet loses its malefic effect. This is also written in the ancient astrological books, that the exalted planet brings non-stop prosperity. For instance in Gemini ascendant malefic Mars of Capricorn does not give malefic effect, hence the native becomes free from the malefic result of Mars and reaches at the top of prosperity through the effect of this planet. For this the example of Mr. Morarji Desai's birth chart should be kept in mind. But if this malefic planet is aspected one-sided by Saturn, then this exalted planet is forced to create malefic effect.

Planets : Powerful, Weak and Ineffective.

The Sun and the Moon

Powerful : According to the given principles, if the Sun or the Moon is not weak or ineffective, then he or she should be considered powerful.

Weak : If the Sun or the Moon is debilitated or in the 6th, 8th or 12th house or in his enemy's house or of 1 or 28 degree, he or she is called weak.

Ineffective : If the Sun or the Moon is of 29 or 0 degree, he is called ineffective.

●

Mercury, Jupiter and Venus

Powerful : According to the given principles, if Mercury, Jupiter and Venus are not weak or ineffective, they should be considered as powerful.

Weak : If Mercury, Jupiter or Venus is debilitated or in the 6th, 8th or 12th house or in his enemy's house or retrograde or of 1 or 28 degrees, is called weak.

Ineffective : If mercury, Jupiter or Venus is of 29 or 0 degree, is called ineffective.

●

Mars and Saturn

Powerful : According to the given principles, if Mars and Saturn are not weak or ineffective, then they should be considered powerful.

Weak : If Mars or Saturn is debilitated in his enemy's house is called weak.

Ineffective : If Mars or Saturn is of 29 or 0 degree, he is called ineffective.

CHAPTER SEVENTEENTH

The Cancellation of Debilitated Planet. The Cancellation of Weak Retrograde Planet. The Cancellation of Weak Benefic Planet. The Cancellation of Benefic Planet and the Cancellation of Malefic Planet.

Now we shall study how the weak planets become powerful and powerful planets become weak or how the malefic planets become benefic and benefic planets become malefic.

1. The Cancellation of Debilitated Planet.

1. Even though the debilitated planet is considered to be weak, it does not lose the strength of aspect. The effect of this planet is weak, but if the debilitated benefic planet (not malefic) is in its own significating house, it achieves the strength of this house and gives powerful results to its own houses as well as to the related houses. For instance, Jupiter of Capricorn in 2nd, 5th, 9th, 10th or 11th house or Mars of Cancer in 3rd or 6th house is called powerful.

2. The debilitated benefic planet can also become powerful by the relation of any benefic planet through conjunction, opposition or aspect.

3. In the same way, if debilitated malefic planet or Saturn is in the 6th, 8th or 12th house, the cancellation of debilitated is caused and acts as a powerful malefic planet.
4. The debilitated malefic planet related to Saturn by conjunction, opposition or aspect or if debilitated Saturn is related to a malefic planet by conjunction, opposition or aspect, he becomes a powerful malefic.

2. The Cancellation of Weak Retrograde Planet

Benefic Mercury, Jupiter and Venus are considered to be weak if they are retrograde. Such planets cannot give sufficient benefic results to their own and significating houses; but if they are in their own houses or in their significating houses, or exalted or if they are supported by any benefic planet by conjunction, opposition or aspect, the cancellation of weak retrograde planet is caused, i. e. these weak planets become powerful.

In the same way if malefic Mercury or Venus is retrograde, it is considered to be a weak malefic planet but if it is related to any malefic planet or is in the 6th, 8th or 12th house, the cancellation of weak retrograde planet is caused, i. e. this weak planet becomes powerful malefic.

3. The Cancellation of Weak Benefic Planet.

1. Any benefic planet in the 6th, 8th or 12th is considered to be a weak planet, but if it is supported by any benefic planet by conjunction, opposition or aspect, this weak planet becomes powerful.
2. Any benefic planet of 29 or 0 degree, if combust by benefic Sun or aspected one-sided by benefic planet, it remains as ineffective without any change. If it is of 1 or 28 degree, it is considered to be weak and if combust, it also remains as weak without any change. The Sun, the Moon, Mercury, Jupiter or Venus of 1 or 28 degree is considered as weak. The cancellation of such weak planet cannot be formed.
3. If any benefic planet (except Mars) is in the sign of Saturn it is considered to be weak. It cannot give sufficient benefic result to its own or signifcating houses; but if this planet is aspected by benefic planet, it changes into a powerful planet.

4. The Cancellation of Benefic Planet.

1. If any benefic planet is aspected one-sided by Saturn or malefic planet, this benefic planet changes to a malefic planet.
2. If any benefic planet is combust and if the Sun is malefic, then this benefic planet changes to a malefic planet.

3. If any benefic planet is the lord of the 6th, 8th or 12th house and if it is related to Saturn or to any malefic planet by conjunction, opposition or aspect or is in the sign of Saturn or is in the 6th, 8th or 12th house, then this benefic planet unables to give benefic result. Such planet is called a weak benefic planet.

2. The Cancellation of Malefic Planet.

1. If any malefic planet is combust or Saturn is combust and if the Sun is benefic, the combust malefic planet changes from malefic to benefic and gives benefic result. This benefic planet has to give only benefic result to a native. Moreover by being combust, it does not lose the capacity of aspect and according to the principles, wherever it aspects the benefic effect of the Sun is transferred.
2. If any malefic planet or Saturn is aspected one-sided by a benefic planet, the aspected planet changes from malefic to benefic and gives benefic results to a native. This changed planet from malefic to benefic plays an important part in the progress and prosperity of the native life.
3. If maelfic planet is in its own significating house (except Saturn) or in the exalted sign, it changes from malefic to benefic and gives beneficial results. This changed planet, from malefic to benefic,

plays chief part in the progress and prosperity of the native's life.

4. Jupiter never acts as malefic. He does not have bad effect even as a lord of the 6th, 8th or 12th house. He is not an enemy of any planet He is virtuous, wise and impartial. He always gives beneficial results at all the occassions. But the ascendants of Taurus, Libra, Capricorn or Aquarius do not like to take advantage of Jupiter's benefic effect. Because the above planets have the natural tendency of evil deeds. Jupiter fights against and defeats them, i. e. if the lord of these ascendants denies the virtuous quality of Jupiter, then here he acts as a malefic. For instance, if the lord of these ascendants performs any illegal action, Jupiter handicapes their illegal action and gets them arrested or if they spend lavishly and if they borrow money on credit or by interest, Jupiter puts them into difficulties. He also pulls them back if they try to do the work beyond their capacity. In the same way if the ascendants of Taurus, Libra, Capricorn and Aquarius accept the virtuous quality of Jupiter, then, Jupiter acts as benefic and take the native to the highest point of progress and prosperity and credits him with reputation.

CHAPTER EIGHTEENTH

The nature, personality, influence, dwelling places, bussiness or occupation of signs and planets.

Now we shall think over the nature, influence, effect, dwelling places, businesses or occupations of twelve signs and all the seven planets. During the observation of any birth chart, it should be noted that the sign placed in the ascendant influences the human being with its nature, effect, dwelling places, businesses or occupations.

For example, if any one brings you a birth chart of cancer ascendant and asks you what is the nature, influence, effect, dwelling places, businesses or occupations of the native. For this the answer should be read and given from this very chapter of Cancer ascendant with its own nature, influence, dwelling places, businesses or occupations.

Moreover the planet which has been related to ascendant or lord of the ascendant by conjunction, opposition or aspect, the native is also effected by the planet's nature, influence, dwelling places, businesses or occupations. Also the native is influenced by the sing's nature, effect, dwalling places, businesses or occupations in which the lord of the ascendant is placed.

Warning : In any birth chart when the malefic planet is related to ascendant or the lord of the ascendant by conjunction, opposition or aspect, the native comes under the effect of malefic planet's nature, influence, dwelling places, businesses or occupations. But this malefic effect is harmful to a native. So in any birth chart the native's attention should not be drawn towards malefic nature, influence, dwelling places, businesses or occupations, as the native would be tempted to undertake the malefic planet's characteristic and consequently he has to suffer.

Example :

1. The Moon is malefic in Leo, Sagittarius or Aquarius ascendant: If the native has 1 + Moon, then the native's attention should not be drawn or advised at 1 + Moon's business or occupation, such as opening an ice factory, as the native would be put into difficulties. For this the Astrologers should take special care not to give such perdictions.

2. Also if the lord of the ascendant is in the 6th, 8th or 12th house, the native should not be advised to undertake the businesses or the occupations of the sign in which the lord of the ascendant is placed. This is also harmful to the native.

3. The advice of a business should not be given to

a native in whose birth chart the lord of the ascendant is placed in the house of enemy's planet or if the enemy planet is related to the ascendant or to the lord of the ascendant. For instance, Venus is the enemy of the Sun, so the natives of Leo's ascendant should not be advised to undertake the businesses or occupations of Venus. In the same way, the Moon is the enemy of Mercury, so the natives of Gemini or Virgo ascendant should not be advised to undertake the business of the Moon.

4. Moreover in any birth chart, when a malefic planet is debilitated or of 0 degree, then the native prefers to do the business of the same malefic planet; due to this weak or ineffective malefic planet, the native achieves non-stop progress and prosperity without any difficulties. For example, in a birth chart of Mercury or Virgo ascendant, if malefic Mars is debilitated or of 0 degree, then the native leaving aside his own business of Mercury adopts the business of malefic Mars. In such occassions, it should be noted that the native comes under, nature, effect, influence or business or occupation of 1 + Mars (debilitated or of 0 degree malefic planet) and he becomes a doctor, a lawyer, an engineer or a commander etc.

In addition to this it should also be noted that if Transit malefic Saturn passes through a particular house, he produces the malefic result of that particular house.

CHAPTER TWENTY FIRST

Some important principles of Astrology

1. If any planet is the lord of trine or quadrant and also of the 6th, 8th or 12th house, it is considered to be a benefic planet.

2. If any planet is not the lord of trine or quadrant and if it is the lord of the 6th, 8th or is it 12th house, considered to be a malefic planet.

3. In any birth chart if malefic planet comes in conjunction, opposition or aspect with particular houses, then the malefic planet destroys the benefic result of the same particular house and also destroys the benefic result of the house, whose lord or the significator is related through conjunction, opposition or aspect to the same malefic planet. Fos instance, if any malefic planet who is the lord of the 8th house and if it is situated in the 10th house, the result of the 8th house improves, whereas it destroys the benefic results of the 10th house and it also destroys the benefic results of the related houses with the planets and of the houses.

4. In the same way if a lord of trine or of quadrant is in the 6th, 8th or 12th house, it is considered weak. So it does not give powerfull benefic results to its own houses or to its significating

houses. But it destroys the malefic result of the houses in which it is situated or aspects the malefic houses.

Example : In any birth chart if the lord of 9th house is in the 6th house, the native does not get powerful benefic results of the 9th house; but he gets the powerful benefic result of the 6th housd and the 12th house also. But if this planet is related to another benefic planet by conjunction opposition or aspect, the planet which is in the 6th, house gives benefic powerful results to its own houses and its significating houses also, due to cancellation of weak combination.

5. If malefic planet in situated in one's 9th house, then it gives powerful malefic results connected to the 9th house. In the same way by opposition or aspect, it also gives powerful malefic results.

In the same way if the malefic planet situated in the 9th house, but Mars acting as the lord of trine or quadrant aspects the malefic planet by the 4th or 8th aspect, then Mars does not allow the malefic planet to create any malefic effect because Mars is the sole controller of this malefic planet. But if this Mars is in conjunction or opposition with the malefic planet, then Mars has no control over it. So the malefic planet would create malefic result in its time (period) and Mars would give benefic result to the native in his time (period).

In the same way if Mars is in the 9th house and the malefic planet occupying the 3rd house aspects Mars and the 9th house then the native would obtain malefic result connecting fortune, because it aspects the 9th house and Mars.

Opposite to this if the malefic planet is situated in the 9th house, and if Mars occupying the 3rd house aspects it, then the native would experience malefic result of the 9th house. But this result would be ordinary, because according to the principles of Astrology **the effect of the planet aspecting the houses is considered to be powerful.** In the same way the aspect of Mars destroys the malefic effect of the 9th house, but he has no complete control, as the malefic planet is aspecting Mars too. There is great ups and downs in the life of such natives.

Sometimes he sleeps on the bed of roses and sometimes on the floor !!

6. The natural friendship of the planets plays an essential part in giving results. The Sun, the Moon, Mars are the friends of Jupiter. Now the malefic Moon is the lord of 8th house in Sagittarius ascendant, she is to give malefic results. But being

a friend of Jupiter, she does not give the malefic results as required. But if the same Moon is the lord of 6th house in Aquarius ascendant, she is being the enemy of Saturn, would give powerful malefic results, the result that would be unendurable by the native. The native would suffer from the diseases of ascites, anaemic condition, death in water etc. which are known as the diseases of Aquarius ascendants. In short, malefic planet gives malefic result, but it should also be noted that the natural friendship of the planets may increase or decrease the results accordingly.

7. Planet sends its vibrations or effect to another planet through conjunction, opposition or aspect. For instance, if Mars aspects Saturn, the effect of Mars is carried off by Saturn in the houses where he (Saturn) is situated or aspects.

8. The effects of the aspect of planet is considered powerful. For instance, if Venus occupying ascendant and wishes to create his effect in the 1st house but if Jupiter aspects ascendant from the 7th house the effet of Venus in the 1st hourse is destroyed and the native's 1st house comes under the influence of Jupiter.

9. Exalted planets and the planets in their own houses are considered to be powerful, whereas debilitated planets are considered to be weak.

10. Planets of 29 or 0 degree are considered to be ineffective, cannot create effect and are in the extinct state. In any birth chart if the lord of 9th house is of 0 degree, the native would not be benefited in connection with fortune. In the same way, if the ascendant or the lord of the ascendant of any native is of 0 degree, the native will be weak in body, mind and soul. If the lord of 6th house is of 0 degree, it cannot create diseases or enemies. In the same way, for the 8th house, no worries of short life and no worries of expenditure, debt, loss, interest and insolvency for the 12th house. It should also be noted similarly that the planet of 29 or 0 degree cannot create its own benefic or malefic effect.

11. Saturn being the significator of the 6th, 8th and 12th houses should be considered as malefic, (except in Gemini and Virgo ascendants) even though he may be of exalted.

12. If Saturn (except in Gemini and Virgo ascendant) is in the 4th, or 7th or in 11th house, and if the benefic Sun, Moon, Mars or Jupiter do not aspect the 1st house, the combination of 1 + Saturn puts the natives into great difficulties and creates blockade in business or in service.

13. Now, if Saturn is in the 1st house and the Sun, the Moon, Mars or Jupiter are also in the 1st house, the cancellation of 1 + Saturn is not caused.

14. If Saturn aspects the 1st house and if the Sun, the Moon, Mars or Jupiter is in the 1st house itself, the cancellation of 1 + Saturn in the 1st house is not caused because the aspect of planet is considered to be powerful.

15. If Saturn aspects the 1st house and the Sun the Moon, Mars or Jupiter also aspects in the 1st house, the cancellation of 1+Saturn not is caused and if Saturn is in the 1st house and the Sun, the Moon, Mars or Jupiter aspects the 1st house, the cancellation of 1 + Saturn is caused, because the aspects of planet is considered to be powerful.

16. If Saturn is aspected one-sided by Mars or Jupiter, then he (Saturn) is considered to be benefic.

17. In the birth chart of Taurus and Libra ascendants, if Venus and Saturn are in conjunction, opposition or aspect, then Venus acts as a malefic, because Venus is the lord of 6th and 8th house respectively. So the relation of Venus and Saturn in this birth chart is considered to be malefic. In the same way in the ascendant of Aries and Scorpio, the relation of Saturn with Mars is considered to be malefic.

18. If the lord of trine, quadrant or the lord of 3rd house is in the 1st house, then it is considered to be very powerful, because it gets the strength of the 1st house.

19. If any benefic planet is in its own significating house, then it is considered to be powerful; for instance, Jupiter, the lord of 7th house is in the 5th or 9th house.

20 If any significator (except Saturn or except in the house of 6th, 8th or 12th) is in its own house, then it is considered to be powerful. For instance, Jupiter, the significator of 5th house is in its own 10th house, he is considered to be powerful as a significator of the 5th house.

21. If Jupiter is in the Taurus of Libra ascendant or is in the Taurus or Libra sign, then the native is unable to achieve the required benefic result. The reason is that Venus rejects the nature of Jupiter, as he is the enemy of Jupiter.

22. It should also be noted that the Sun, the Moon, Mars and Jupiter are on the Gods side, they are victorious and powerful, while Mercury, Venus and Saturn are on the devils side, they are defeated ones i. e. in the matter of prediction, Venus, Mercury and Saturn cannot create benefic result as much as created by the Sun, the Moon, Mars or Jupiter.

23. If Venus and Mars are related to the 7th house, then the native experiences difficulties in married life.

In contrast to this, if Venus is weak in any birth chart and if there is a combination of 7 + Mars, then the native of such birth chart experience of blessed married life.

24. Exalted malefics are considered as benefic.

25. The exalted Saturn is considered as malefic. The native of such exalted Saturn runs ahead beyond their capacity and consequently they have to retreat and experience despairs for ever.

26. The combination of exalted malefic + Saturn or exalted malefic + malefic should be considered as malefic.

27. If benefic planet is aspected one-sided by Saturn or malefic planet, then the result of this benefic planet should be taken as malefic one; but if this benefic planet is aspected by any benefic planet, it should not be taken as malefic, i. e. benefic is always benefic.

28. Saturn, Mercury and the signs of Capricorn, Aquarius, Gemini or Virgo are considered to be malefic for the 7th house and the 5th house, in the matter of married love and happiness of children respectively even though they are benefic in the birth chart.

CHAPTER TWENTY SECOND

The special nature of Mars and the Moon

Now we shall study the special nature of Mars and the Moon.

The nature of Mars is worth studying. His nature is to oppose the situation, go ahead but against the currents. He is brave, commander. victorious in every field and is of independent nature, People of Mars are the sole rulers of this world, though they may be dictators, kings or elected ministers. Mars is very powerful, intelligent, wise, politician and beneficial. The native having the advantage of 1 + Mars, steps out into the world in no time.

Even though Mars has uncountable virtues, yet he has certain weaknesses also• Mars is commander, separated from life partner, so he is lustful. All his mighty abilities are over-powered in the hands of women; that is why the people of Mars are always advised to keep themselves away from women. The living example is of profumo, the former Defence Minister of England should be kept in mind.

Mars, the self ruining planet

If Mars is aspected one-sided by Saturn in any birth chart, i. e. if Saturn aspects Mars and Mars does not aspect Saturn, then Mars being of independent nature and captured by Saturn prefers to commit suicide. The natives of Saturn tries to take maximum advantage of Mars intelligence, with result that Mars opposes and moves reverse and later on the native has to experience great despair and on account of unendurable unhappiness and miseries commits suicide. The example that of Hitler should be kept in mind.

When Mars does not act to ruin himself ?

If there is above-mentioned combination of Mars, the self ruining planet i. e. if. Mars has been captured one-sided by Saturn and becomes dependent, but if the benefic Sun, Moon, Jupiter aspects Mars, then Mars, the self ruining planet does not act to commit suicide i. e. Mars acts as a benefic.

When the Moon prefers to ruin herself and when not ?

In the same way if the Moon is aspected one-sided by Saturn, then the Moon becomes dependent, acts just like Mars to destroy herself but when this dependent Moon is aspected by the benefic Sun, Mars or Jupiter, then the Moon stops the act of self-ruin.

CHAPTER TWENTY THIRD

Transit Planetary Time (periods).

When the Transit planet aspects the Radical planet of its own kind by conjunction, opposition or aspect with the sign and its degree, latitude and declination of the Radical planet of a birth chart, then the native achieves its benefic or malefic result, which is called Transit Planetary Time (periods). (T. P. T.)

The below given table has been prepared and explained in complete years and months, when a particular planet would give results. This table is prepared when the transit planet aspects the radical planet of its own kind by conjunction, opposition or aspect with the sign and its degree, latitude and declination of the Radical planet in the birth chart.

In this way the Transit Sun comes in conjunction, with the Radical Sun with his sign and its degree, latitude and declination at 18 years. In same way the Transit Moon, Mars, Mercury, Jupiter, Venus and Saturn comes in conjunction with the Radical Moon at 16 years, Mars at 28 years, Mercury at 10 years, Jupiter at 12 years, Venus at 8 years and Saturn at 30 years with their signs, degrees, latitudes and declinations in the birth chart respectively.

These years are divided into 12 parts (because of the 12 signs) each part (period or time) is fixed for each house. In this way by fixing these years and months (period, time) when the Transit planet aspects the Radical planet by conjunction, opposition or aspect with the sign and its degree, latitude and declination of the Radical planet of a birth chart, then the native of the birth chart gets maximum results of the planet. It is worth saying•that the table of **'Transit Planetary Time'** is 'scientific, best in result in the matter of Astrological predictions.

Each Transit planet creates its own effect at the distance of 15 degrees forward and backward from the Radical planet or its own kind i. e. it creates the effect for the period (time) of 30 degrees i. e. the period (time) of one sign etc. In this way the Sun for 18 month, the Moon for 16 months, Mars for 28 months, Mercury for 10 months, Jupiter for 12 months, Venus for 8 months and Saturn for 30 months give the results.

Now, if the Sun gives result at the age of 18 years of 18 months, taking 18 years (complete) in centre, deducting 9 months and adding the 9 months, the Sun gives result at the age of 17 years 3 months to 18 years 9 months in Transit Planetary Time.

In the same way the Moon gives result at the age of 15 years 4 months to 16 years 8 months.

Mars at the age of 26 years 10 months to 29 years 2 months.

Mercury gives the result at the age of 9 years 7 months to 10 years 5 months.

Jupiter gives the result at the age of 11 years 6 months to 12 years 6 months.

Venus gives the result at the age of 7 years 8 months to 8 years 4 months.

Saturn gives the result at the age of 28 years 9 months to 31 years 3 months.

Each planet aspects the 7th house, so the transit Sun, Moon, Mars, Mercury, Jupiter, Venus and Saturn come in opposition with the radical Sun, Moon, Mars, Mercury, Jupiter, Venus and Saturn with his sign and his degree, •latitude and declination at the age of 9, 8, 14, 5, 6, 4 and 15 years respectively.

Similarly the Sun gives the result at the age of 8 years 3 months to 9 years 9 months.

The Moon gives the result at the age of 7 years 4 months to 8 years 8 months.

Mercury gives the result at the age of 4 years 7 months to 5 years 5 months.

Jupiter gives the result at the age of 5 years 6 months to 6 years 6 months.

Venus gives the result at the age of 3 years 8 months to 4 years 4 months.

Saturn gives the result at the age of 13 years 9 month to 16 years 3 months.

Now Mars, Jupiter and Saturn have got additional aspects.

The Transit Mars aspects the Radical Mars at the 8th aspect giving the result at the age of 10 years 6 months to 12 years 10 months and by the 4th aspect giving the result at the age of 19 years 10 months to 22 years 2 months.

Transit Jupiter aspects the Radical Jupiter at the 9th aspect giving the result at the age of 3 years 6 months to 4 years 6 months and 9th aspect giving the result at the age of 7 years 6 months to 8 years 6 months.

Transit Saturn aspects the Radical Saturn at the 10th aspect giving the result at the age of 6 years 3 months to 8 years 9 months and by the 3 aspect giving the result at the age of 23 years 9 months to 26 years 3 months.

According to this theory after fixing the periods of each planet and adding 18 years in the period of Sun, 16 years in the period of Moon, 28 years in the period of Mars, 10 years in the period of Mercury, 12 years in the period of Jupiter, 8 years in the period of Venus and 30 years in the period of Saturn, the table of Transit Planetary Periods for 80 years has been prepared which is as follows :

Note : Sometimes the Transit Jupiter and Saturn does not come into conjunction, opposition or aspect with the Radical Jupiter and Saturn at the distance of 15 degrees forward and backward. So in order to fix the periods (time) of Jupiter and Saturn should be corrected according to the period of 15 degrees forward and backward from the Radical Jupiter and Saturn.

Example : If Jupiter of Libra is of 22 degrees in any birth chart, then the Transit Jupiter would give the result from 7 degrees of Virgo to 7 degrees of Scorpio. In this way the Transit Planetary Periods (time) of Jupiter and Saturn should be fixed and rest of the planets give the results according to the following table.

Birth chart, the table of benefic or malefic planets and their results.

Hints :

1. Please find out the age in complete years and months from the birth date of a native and find out

the Transit Planetary Time (period) of a planet or planets from the table given below according to age i. e. years and months and then what kind of result would the native get can be known from the time (period) of this planet or planets who are related to the houses as a lord, significator or to whom it is in conjunction, opposition or aspect.

The particulars of the houses can be known from the Chapter Seventh of this book.

If there is no planetary time (period) in a particular age, it must be understood that the time will pass without any notable changes. This time is mentioned by the use of the word 'no'

2. When sometimes there may be time of two or three planets at a time, then it should be understood that these two or three planets would create their effects according to their relation with the houses of a birth chart.

Example :

Find out the age in complete years and months of a native born on 8-12-1928 to 5-8-1965 ?

On deducting 8-12-1928 to 5-8-1965 the result will be complete 36 years and 8 months. Now obsering this **table of 'Transit Planetary Time'** one can see that the native is now under the effect of the Sun and Saturn.

A BOOK OF ASTROLOGICAL CORRECT PREDICTIONS

PART II

MATHEMATICAL SECTION

CHAPTER FIRST

1. How to cast a correct horoscope ?

For the preparation of any birth chart only three particulars are required : (1) Birth date (2) Birth time (3) Birth place.

If any one of the above three particulars is not available, then the birth chart cannot be prepared.

Hence it is advisable to note correctly the native's birth date, time and place. If there is any mistake in recording the date, time and place, then it is quite natural that it becomes difficult to prepare a correct horoscope. The time of our watch should always be adjusted according to Railway's clocks or Radio timings. This time is known as the 'Standard Time'.

According to astrology, when it is one O'clock in the afternoon, it is written as 13 hours. The time should be written according to Railways time table, say after 12 noon, 13 p. m., 14 p. m. etc.

Having written date, time and place, start preparing a horoscope according to the following method.

First of all find out the Local Time from the Standard Time of the birth place. As for example: A child is born in Ahmedabad on 18–6–1964 at 15 hours 20 minutes (Standard Time) In order to find the Local Time, we have to see the latitude and longitude of Ahmedabad. Please refer our book ' An Easy Way of Casting Correct Horoscope ' Part II according to which Ahmedabad is at 23 degrees latitude and 72·39 degrees longitude and the difference of 39 min.32 seconds for Ahmedabad Local Time is shown less than the Indian Standard Time. Now, in this way we shall find the Local Time of Ahmedabad.

Hrs. Min. Sec.
15 – 20 – 00 Standard Time.
– 00 – 39 – 32 Difference for Ahmedabad.

---

14 – 40 – 28 Local Time (Ahmedabad)

Having obtain the local time, the Sidereal Time of a birth should be added i. e. looking Part II of our book 'An Easy Way of Casting Correct Horoscope', the Sidereal Time on 18–6–'64 is 17 hours 44 minutes 1 second which is to be added to 14 hours 40 minutes 28 seconds, the total is as follows:

Hrs. Min. Sec.
14 – 40 – 28 Local time
+ 17 – 44 – 1 Sidereal time

32 – 24 – 29

In this way after getting 32 hrs. 24 min. 29 sec. **the motion of Sidereal Time at the rate of 10 seconds per hour approximately** is to be added, which is known as 'the correction of Sidereal Time at the rate of 10 seconds per hour.'

The correction of Sidereal Time at the rate of 10 seconds per hour is to be added in the time of a particular birth chart being prepared from 0 hour midnight

Example: If any one wishes to prepare a birth chart of a child born 15 hours 20 minutes 0 second Standard Time, then 150 seconds for 15 hours and 3 seconds of 20 minutes, totaling 153 seconds = 2 minutes 33 seconds should be added as correction for Sidereal Time

Hrs. Min. Sec.
15 – 20 – 00 Standard Time.

A. M. C.

Now look at the Part II of our book, 'An Easy Way of Casting Correct Horoscope' the table given of 23 latitude i. e. the table of ascendent of

Ahmedabad. Find out 8 hrs. 27 min. 2 sec. from the table of ascendants. The figure is between 10° and 11° of Libra sign i. e. this native is born in complete 10° of Libra ascendant. So rhe figures should be written as follows :

9	8	A. 7	6	5
10				4
11	12	1	2	3

Ascendant : Libra's 10 degrees.

Write 7 where it is written 'A.' in the horoscope and from left write serially 8 to 12 and then 1 to 6 as shown in the horoscope.

Having known how to find out the ascendant correctly in a horoscope, means you have learnt the first step of preparing a horoscope with hundred percent results.

2. How to place planets with its degrees in a horoscope ?

Now look in the given ephemeris of the year 1964 Part II of our book, ' An Easy Way of Casting Correct Horoscope ', in which on 14-6-1964 and 18-6-1964 the planets with its signs and degrees are seen written.

Planets with its degrees at 5–30 A. M. (Indian Standard Time)

	The Sun	Mars	Mercury	Jupiter
	Sn.d.m.	Sn.d.m.	Sn.d.m.	Sn.d.m.

Now we shall find out the planets with its degrees from the notes of the above planets of 18–6–1964, 15 hrs. 20 min. (Std. Time) (Not Local Time). Before this, we shall find out the difference in hours and minutes of 14th morning 5 hrs. 30 min. A. M. to 18th 15 hrs. 20 min.

	Day	hrs.	min.
	18th	– 15	– 20
–	14th	– 5	– 30
	4	– 9	– 50

Note : Please see that if it is 30 min. or more than that in the above answer, it should be considered as a complete hour; and if it is less than 30 minutes, the minutes should not be counted.

In this way for the above 50 minutes, we shall count it as a complete hour i. e. 4 days 9 hrs. 50 min. = 4 days 10 hours, (approximately) i. e. in all 106 hours.

These 106 hours means, counting from 14th morning 5 hrs. 30 min. up to 106 hour (approx) a native is born.

Now we shall find out the motion of each planet in seven days· i. e. in 168 hours.

We have seen that the Sun has already completed 2 signs 3 degrees and 49 minutes, it means that the Sun is in 4th degree of Gemini. So we have placed the Sun in Gemini in the horoscope. In the same way the Moon is placed in the Virgo, Mars and Mercury in Taurus, Jupiter in Aries, Venus in Gemini, Saturn in Aquarius and Dragon's head in Gemini and so on.

Please remember that the signs, degrees and minutes written in every ephemeris are written in complete signs, degrees and minutes. If it is written in Mars column 1 sign 7 degrees, then Mars has completed 1 sign, means that Mars is in 2nd sign i. e. in Taurus and Mars has also completed 7 degrees, means Mars is of 8th degree of Taurus.

In this way one can prepare easily a horoscope. No daubt one finds it rather difficult in the beginning, but constant reading and practising enables one to prepare any horoscope in five minutes only !

Note : According to the above method, one can prepare a horoscope of any native born in any part of the world by studying our book, 'An Easy Way of Casting Correct Horoscope' which is written in a simple language with various examples and can be easily followed by any one.

CHAPTER SECOND

2. How to convert a Western birth chart (Moving Zodiac) into an Indian birth chart (Fixed Zodiac)?

Look at the Western horoscope of Mahatma Gandhiji given below. Let us see how this Western horoscope can be changed into an Indian horoscope. Before beginning it is quite necessary to be familar with signs used in the horoscope.

[From Moving Zodiac]

	Deg. Min.		Deg. Min.
A. D. 1868	22-00	A. D. 1922	22-45
A. D. 1886	22-15	A. D. 1940	23-00
A. D. 1904	22-30	A. D. 1958	23-15

[**Note** : The Solar System moves 1 degree in every 72 years. So there is an increment of one degree in Fixed Zodiac in every 72 years i. e. considering quarter degree or 15 minutes motion in 18 years.]

Mahatma Gandhiji was born in A. D. 1869. During the birth year, the difference of Fixed Zodiac was minus 22 degrees of Moving Zodiac.

Now look at the figures written 1 to 12 in a circular form in the middle of the birth chart. The line drawn above 1 is Eastern Horizon and indicates 5 degrees 8 minutes of Scorpio's Moving Zodiac, from which deducting 22 degrees a birth chart of Libra ascendant of 13 degrees and 8 minutes is obtained.

Now deducting 22 degrees from the planets, of Moving Zodiac we shall obtain the planets of Fixed Zodiac.

Planets of Moving Zodiac			Planets of Fixed Zodiac
Sun	: Libra	8 degs. 58 min. =	Virgo 16 degs. 58 min.
Moon	: Leo	20 degs. 5 min. =	Cancer 28 degs. 5 min.
Mars	: Scorpio	18 degs. 41 min. =	Libra 26 degs. 41 min.
Mercury	: Scorpio	3 degs. 40 min. =	Libra 11 degs. 40 min.
Jupiter	: Taurus	20 degs. 8 min. (retro.) =	28 degs. 8 min. of Aries (retro.).

Venus : Scorpio 16 degs. 24 min. =
Scorpio 24 degs. 28 min.

Saturn : Sagittarius 12 degs. 24 min. =
Scorpio 24 degs. 28 min.

Dragon's head : Leo 4 degs. 9 min. =

10 ☋				☽ 4 ☊

In this way a horoscope of Moving Zodiac can be converted into a horoscope of Fixed Zodiac.

Now we shall learn how to read and convert a birth chart written in language.

King George V. Born : 3–6–1865 (difference of –22° for Fixed Zodiac) Time : 1–18 (a.m.) London.

The Birth Chart of Moving Zodiac.

The same birth chart in Fixed Zodiac.

In the above birth chart 1st, 10th, 11th, 12th, 1st house (Asc.) 2nd house and 3rd house are written. We shall first see the signs and degrees of the ascendant.

In Moving Zodiac = In Fixed Zodiac

Asc. : Aries 2 degs. 39 min. = Pisces 10 degs. 39 min.
Mars : Leo 5 degs. 37 min. = Cancer 13 degs. 37 min.
Moon: Libra 1 deg. 4 min. = Virgo 9 degs. 4 min.
Saturn : Libra 24 degs. 6 min. = Libra 2 degs. 6 min.
Dragon's head : Libra 28 degs. = Libra 6 degs.
Jupiter : Sagitt. 25 degs. 40 min. = Sagitt. 3 degs. 40 min.
Venus : Taurus 9 degs. = Aries 17 degs.
Mercury : Taurus 18 degs. 30 min. = Aries 26 deg. 30 min.
Sun : Gemini 12 degs. 30 min. = Taurus 20 degs. 30 min.

In this way one can convert a horoscope of Moving Zodiac into a horoscope of Fixed Zodiac. For this it is quite important to remember the symbols of 12 signs and seven planets.

A BOOK OF ASTROLOGICAL CORRECT PREDICTIONS

PART III

BIRTH CHART AND PREDICTION SECTION

Chapter First : First House

1. A STOUT BODY AND A WEAK BODY :

Now we shall study how to know the history of a native from the twelve houses of the birth chart.

First of all we shall try to understand the three main elements of the human existance (1) the native's body, mind and soul, (2) intelligence, education and (3) fortune. The whole stem of life is chiefly based on the above three main elements, that is we shall learn to observe the 1st house, 5th house and the 9th house. It is only, through these three main elements a native is able to build his life and prosperity. Later on we shall try to study the secondary knowledge of other houses etc., of the native's life.

(a) A Stout body :

(1) First house + benefic or First house without combination.

(2) 1st Lord + benefic or 1st Lord in quadrant or trine or in the 3rd house or exalted.

(3) Sun + benefic or Sun in quadrant or trine or in the 3rd house or exalted.

(b) A Weak–body :

(1) First house + Saturn (except the asc. of Gemini & Virgo) (malefic) or his sign or malefic or ascendant *. (of 0 degree)

(2) 1st Lord + Saturn (malefic) or his sign or malefic or in 6th, 8th or 12th house or 1st Lord * or debilitated.

(3) Sun + Saturn (malefic) or his sign or malefic or in 6th, 8th or 12th or Sun * or debilitated.

A Stout body : An explanation of its combinations.

1. If there is a benefic planet in the 1st house or benefic planet aspects the 1st house or if there is no any planet in the 1st house or if no planet aspects the 1st house, this combination is called 'First house + benefic or First house without combination.'

2. If any benefic planet is related to the lst Lord by conjunction, opposition or aspect or the lst Lord is in quadrant or trine or in the 3rd house or exalted, then this combination is called '1st

Lord + benefic or in quadrant or trine or in the 3rd house or exalted.'

3. If any benefic planet is related to the Sun by conjunction, opposition or aspect or if the Sun is in quadrant or trine or in the 3rd house or exalted, then this combination is called 'Sun + benefic or the Sun in quadrant or trine or in the 3rd house or exalted.'

opposition or aspect or the lord of the ascendant is in Capricorn or Aquarius sign or is in the 6th, 8th or 12th house or lord of the ascendant is * or debilitated, then this combination is known as 'Lord of the ascendant + Saturn (except the lord of Gemini or Virgo ascendant) or malefic or Saturn's sign or in the 6th, 8th or 12th house or lord of the ascendant is * or debilitated'.

But to-day in this world, rapidly moving in leaps and bound, every individual is surfacely engrossed and fascinated to the snares of the world and have lost the real happiness and pure manifestation of soul While there are some knowledgethirsty people who are extremely desirous to come out into this world in search of real origi nality of Him, leaving their family and its ties, wife and children and worldly bliss to lead a pure–souled holy life. They are ever–ready to face hardships and obstecles with a smiling face to seek God. Here in Astrology such awakened soul is expressed with the word 'Soul power' and sleeping soul as 'Lacking in soul power.'

Here according to the nature of the planets, the Sun is God, Almighty, so the natives of 1 + Sun are always in endeavouring to seek God. Such great souls bestow their whole life in service of God. Also if there is a combination of 1 + Jupiter and 1 + Mars, then these natives become 'Great Saints'. They hear the call of God and obtain divine knowledge. They receive the messages of God and act according to His messages and are mostly religious preachers. Whatever they speak or tell always prove corret and in this way they find their way to salvation. (2) 1st Lord + Saturn or his sign or malefic or in the 6th, 8th or 12th house.

Now we shall see how the natives are affected by their own special qualities and defects.

In the previous chapter we learnt about the native's body, mind and soul, but now we shall study some of the principles of qualities and sub-qualities of the above matter with horoscopes; and later on we shall, for more details, study to observe completely the important specimen of the birth charts.

The qualities of man of self-realization are chiefly due to the nature of Jupiter. Though the natives of Venus are learned and educated, they lack the culture of Jupiter. please always remember that Jnpiter is steadyminded, impartial and non-revengeful, hence he is ever-ready to present his virtuous qualities to a native whether the native may be a friend or an enemy to him. Still the effect of Jupiter's nature is mostly dependent upon the sign placed in the ascendant. If that sign is in favour of Jupiter, then the native gets hold his (Jupiter's) qualities, i. e. the native is influenced by the virtuous qualities of Jupiter; and if the sign of the ascendant Taurus, Gemini, Virgo or Libra dislikes or disagree with the nature of Jupiter, then the native is unable to hold the required qualities of Jupiter, i. e. the native lacks in the virtuous qualities of Jupiter.

Moreover to understand distinctly about Jupiter's virtuous qualities, which the public hopes to be imparted to their children, are possessed by Jupiter (Guru = teacher). Hence it undoubtedly proves that Jupiter must be of above mentioned virtuous qualities.

1. If Jupiter is related to the lst house by conjunction, opposition or aspect or if there is Sagittarius or Pisces in the lst house, then this combination is known as 'First house + Jupiter or his sign.'

The qualities of fearlessness is depended upon the nature of Mars. Mars is commander–in–chief, courageous, fearless, determined, independent, opposing and reverse nature, adventurer enthusiastic and victorious. One who possess the above qualities of Mars is supposed to be fearless, thoughtful, regular, patient, well arranged, determined, sure and optimist. We shall remember some of such personalities later on.

To lead superior life, the trio of Mars, Jupiter and the Sun are required. The strength of trio in a native's birth chart makes the native much strong while weakness of trio makes the native feeble and weak.

In other way, a native also becomes weak. The Sun, the Moon and Mars are the enemies of Saturn i. e. ascendents of Capricorn and Aquarius. The Moon and the Sun are also the enemies of Venus i. e. ascendent of Taurus and Libra So when the Sun, the Moon and Mars possesses complete control over the native's birth chart, then the native of such birth chart becomes victorious in life and reaches at the top of prosperity; and if the position of the Sun, the Moon and Mars are weak in the birth chart the native becomes despaired, disheartened and perverted and leads a disgusting life.

(3) 1 (asc. or lord of the ascendant) + Venus or Libra.

(4) 1 (asc. or lord of the ascendant) Without Jupiter or his sign or Jupiter * or debilitated or Jupiter aspected one-sided by Saturn or Taurus, Libra, Capricorn or Aquarius ascendant.

There are two sets of people in this world, one is trustworthy, in whom, we can keep trust and another is untrustworthy (treacherous). These untrustworthy (treacherous) persons keep an appearance of a man of trustworthiness, but when an opportunity comes, they donot hasitate to strike. Naturally the people who are trustworthy would like to keep themselves at arm's length from such untrustworthy people. In the science of Astrology, Jupiter is known as trustworthy, loyal and honours the laws, absorber of poverty and difficulties, well-wisher and virtuous. Hence the people of Jupiter are known as trustworthy and these are the people who actually experience treacheries (the victims of trustworthy are accommodated in the 6th, house and the detailed particulars are given in that section) as they keep trust in others. Specially they are victimised by the natives of Venus. While Saturn is thief, treacherous, bully and earns by illegal means, puts the people in wrong boxes by playing all sorts of silly tricks and plans and deceives them. But he being ignorant, is soon opened in public. So in order to undertake such work, he requires a help of Venus or his sign Libra. Especially the natives of Venus befool the poeple in such a way that they realize their mistakes when they are actually cheated or trapped. But God has created Jupiter inorder to check such illegal misbehaviours and thoughts. If Jupiter is related to the ascendant or lord of the ascendant, the native is not tempted to undertake any illegal action of treachery, even though he may have so many combinations of Venus and Saturn, Hence if there is no combination of 1 + Jupiter and if there is a combination of 1 + Saturn, the native is diverted towards wrong deeds, i. e. he becomes treacherous.

11. INDEPENDENT LIFE OR DEPENDENT LIFE

(a) Living an Independent life

(1) Asc. + Sun, Moon or Mars or his or her sign. (the sign of the 1st house must be of without any planetary combination, except of the Sun, the Moon or Mars.)

(2) Lord of the asc. + Sun, Moon, Mars, Mercury Jupiter or his or her sign (the lord of the 1st house must be of without any planetary combination, except the above mentioned planets.)

(2) 1st Lord + Venus or Saturn or his sign (the lord of the 1st house must be without any planetary combination, except Venus or Saturn).

One without the combination of independent life in his birth chart, should be considered as living dependent life.

Many people live their life based on society. For instance, saints and sages, at a first glance, do not serve, hence they seem to be living independent life, but as they do not earn for their life maintenance, they are to be considered in the combination of dependent life. In the same way, women who do not earn, are also to be considered living dependent life.

In Planetary System, the Sun, the Moon and Mars are of free, independent nature, while Mercury, Jupiter, Venus and Saturn are of dependent nature. Mercury and Jupiter are of dependent nature, but if they get a slight help from the Sun, the Moon or Mars, they become independent. Otherwise if they were to live their lives within their capacity, they live a life of higher standard, but a dependent one.

Living an independent life : An explanation of its combinations.

1. If the Sun, the Moon or Mars is related to the 1st house by conjunction, opposition or aspect or if there is his or her sign in the 1st house and if that sign is without the relation of Mercury Jupiter, Venus or Saturn by conjunction, opposition or aspect, then this combination is known as Asc. + Sun, Moon or Mars or his or her sign (the sign of the 1st house must be of without any planetary combinations, except the Sun, the Moon or Mars).

2. If the Sun, the Moon, Mars, Mercury or Jupiter is related to the lord of the asc. by conjunction,

opposition or aspect or lord of the asc. is in his or her sign without any planetary combination, then this combination is known as Lord of the asc. + Sun, Moon, Mars, Mercury or Jupiter or his or her sign (the lord of the 1st house must be of without any planetary combination, except the above mentioned planets)

12. WHERE THE LIFE WILL PASS ? IN BIRTH PLACE, NATIVELAND OR FOREIGN COUNTRY ?

Every humanbeing is very anxious to know where he or she would pass his or her life. Will he pass in his own birth place, nativeland or foreign country ? Hence a clear understanding of the difference between the three is quite necessary. For instance, if a native passes his life within the area of fifty miles from his own birth place, then it can be said that he passes his life in his own birth place. If he stays more than fifty miles from his own birth place, then it can be said that he passes his life in his own nativeland and if he does not stay either in birth place or nativeland, then, of course, he spends his life in foreign countries.

If, from the following combinations of life passing in birth place, in nativeland or in foreign country, the combination of life passing in birth place is formed, then the observation of rest of the combinations are not necessary and if it is of life passing in nativeland, then the combinations of life in foreign land should not be looked because if the native thinks that he or she is quite happy in his or her own birth place or nativeland, he would not think of leaving his country and go outside.

Chapter Second

BUSINESS OR OCCUPATION

Birth chart, inclination of mind and business or occupation.

It is rather impossible for ordinary Astrologers to predict which business the native will undertake. When the people are confussed or puzzled regarding their business or occupation, they at once run to the Astrologers and ask, " In which business or occupation shall I get success with profit ? By dealing in which wares or by dealing in which commodity shall I be well rewarded ? Or " My son is matriculated, which particular line shall I advise him to join ? Should he join business ? If I send him for further education, in which particular line shall I educate him ? " etc. Is there any posibility for the present Astrologers to answer such questions ?

To-day to find out the business of a native, there are many incorrect methods in vogue. For example; the present Astrologers give the advise of a business based on Navmasa Kundli in which the 10th lord of the birth chart is situated. But they can hardly prove its correctness and such kind of many incorrect methods are continued by the Astrologers.

While some Astrologers, after creating codfidence in native, psychologically finds out the business in which the native is interested and advise him of the same. In this way, if the native adopts a malefic business of a malefic planet, he is ruined in business as well as in life.

To-day I can boldly say that the ancient saints have left the knowledge by which one can see past, present and future. Only fortunate, learned and enthusiatic people are able to obtain this knowledge. Ordinary people and critics merely intoxicated with the 'first sight knowledge', which is incomplete, cannot achieve perfection in Astrology.

Now we shall come to the point. You can know how to find out business of a certain native and you yourself will be surprised to learn that you have got that much capacity of picking up this knowledge.

Ascendant means inclination of mind. According to this inclination, a native not only minds his own business but also lives his life. Any occassion or an event in a native's life is due to the inclination of his mind. Hence, the combination of ascendant or lord of the ascendant suggests the suitable business or occupation of a native. It is also definite that a native cannot adopt any business which is against his inclination of mind and if he at all adopts, it will not last long. If you wish to understand the correct principles of this, just try to explain a native owning a workshop to open a tea stall and listen what he would say in return. In the same way ask a grocer to open a laundry or explain him the workings of banks and insurance companies with its advantages and disadvantages, talk to him about a business without capital, the answer given in return would be worth listening. So you will be convinced that a man makes progress in his business and builds his fortune based on his own inclination of mind, i. e. in the matter of business or occupation, the inclination of native's mind plays an important part.

Now read below, the principles connecting business or occupation. Try this experiment on any native and see whether he answers it or not. But when questioning, please keep in mind that without thorough knowledge of nature of planets and signs, this art will not be obtained. Adhering yourself to these principles and with complete confidence, if you try to gain this art, then and then, you will be successful; and when this success will be obtained, you will dance with joy and dream of golden time.

Inclination of mind and business or occupation.

(1) If malefic planet is of 0 degree or debilitated or aspected one-sided by benefic .planet or if it is converted to benefic planet, then the native does the business of malefic planet.

(2) The occupation of the sign in which the lord of the ascendant is situated.

(3) The business of the benefic planet who is related to the ascendant by conjunction, opposition or aspect.

(4) The business of the lord of the asc. or of the benefic planet who is related to the lord of the asc.

Sometimes in a native's birth chart, there are various combinations of businesses or occupations, and the native has the capacity to undertake more occupations of the different type. But he is able to undertake only two or three businesses, chooses his own business in which he can show ability and talent. The above four combinations are to be considered respectively. If the native is under the influence of 1st combination, he adopts the business based on it, and if there is no such combination in his birth chart, he adopts the business based on the second combination, but if this business is of malefic, he is compeled to leave that and adopt the business based on the third combination and if that business is not suitable to him, he adopts the business of the lord of the ascendant or the business of the benefic planet who is related to the lord of the ascendant by conjunction, opposition or aspect.

Always remember that the effect of the planet aspecting the houses is considered to be powerful and more effective. One is well profited with the business or occupation of benefic planet, on the other hand if one does the business of the malefic planet, he is ruined.

Business means occupation of life. It means with which business a native will pass his life. For example; two men are doing the same business of selling books. One is employer while another is employee to pack the parcels. Apparently both of them touch books and pass their lives in that business. Both are considered to be doing the same business, though one is an employer while another is an employee. Hence the difference of employer and employee can be fixed here as one lives an independent life while another leads a dependent life.

We shall now observe how the native of a particular birth chart would pass his life and in which occupation, based on the principles given above.

Certain business or occupation are done with only one combination while some are based on two or three, which will be read later on with detailed particulars. At present we shall, at first sight just observe the birth charts, as to how the natives were inclined towards a particular business or occupation.

CHAPTER THIRD : FIFTH HOUSE

Education — Knowledge

Education or knowledge is essential for the uplift of a humanbeing.

The natives who have education or knowledge generally rule over the illeterates and uneducated. They live their lives on intellegence while the labourers live their lives by their physical efforts and carry out the orders according to the instructions of the educated people.

What is the difference between a manager and a peon? What is the difference between a merchant and a coolie? What is the different between a mill-owner and labourers?

To-day, every individual understands that, to lead a well, prosperous and a happy life, he must attain a higher standard of education. Some of the natives due to their poverty or other circumstances are forced to give up their studies and consider themselves as unfortunate ones.

If one has all the above five combinations of complete study in his or her birth chart, he or she is able to do complete study and if there is any defect in combinations, then his or her education will remain incomplete. For this we shall observe the following birth charts.

But before observing the birth charts, the following particulars are to be noted.

If Saturn comes in relation with asc. or lord of the asc., then the native refuses to take education or knowledge. Such native, due to obstinate nature, remains illiterate.

The exalted planet does not require any relation to its own house i. e. if the lord of the 5th house (except Saturn) is exalted in any birth chart, it is to be understood that the relation of the lord of the 5th house with the 5th house is caused.

Moreover it is to be noted that if the lord of the 5th house is of 0 degree, i. e. he has completed 29 or 30 degrees, he is considered to be ineffective. It is also to be noted that the planets situated in the 6th, 8th or 12th house or debilitated, are also considered to be weak.

Chapter Fourth : Ninth House

1 THE HOUSE OF FORTUNE : THE COMBINATIONS OF FORTUNE.

1. (a) Native multi-millionaire or millionaire.

Today in this materialistic age, the entire human life moves on the pivot of money. In Astrology the Ninth house is considered to be very important as a House of wealth, House of fortune.

The progress of life is shaped into three main parts. The native's body, knowledge and fortune. Of the above three parts, the most important is fortune, as there is a proverb, "Unfortunate has no happiness." If the native is lame, but is rich, there will be no cause for his unsatisfaction: if he is illiterate or lacks in senses, also there will be no cause for his unsatisfaction, if he is wealthy, but if he is quite healthy and learned but luckless in every efforts, i. e. if the 9th house is weak in his birth chart, he will ever remain unsatisfied, will pass his days in despair and miseries. Hence the House of fortune is the main key of human life.

We shall, for the present study the birth charts of fortunate and unfortunate ones and then later on study the time of the results required in predictions.

There are four types of fortunate natives (male, female) (1) Business enterprisers (3) King (3) Dictators (4) Elected Ministers.

For all this, it is specially required to observe the House of fortune. Moreover a great enterprise in business and its competition is required, hence the 3rd house or the position of Mars is to be observed and from the 6th house, whether the native will be successful or end in failure in his business competition and from the 12th house, whether he will be in position of loss or debt or not is also to be observed.

Kings mostly depend upon their fortune and powers, so their 9th house is to be observed and for their break of power, their 1st and 10th houses are to be observed, which is known as the break of power.

Dictators in critical circumstances, suddenly manouver and get possession of the powers, so their 6th, 9th and 10th houses are to be observed and for their break of power the 1st and 10th houses are to be observed, which is known as the break of power.

Ministers are elected. They are learned, adventurous, valorous, fortunate and constant workers; so their 3rd, 5th, 9th and 10th houses are to be observed and from the 1st and 10th houses their break of power is caused.

The combinations of fortune : Combinations of the natives of multi-millionaire, millionaire or a man worth million or thousands.

[1] 9th house + 9th Lord (except Saturn) or Sun, Moon, Mars or Jupiter or his or her sign or Aquarius in the 9th house.

[2] 9th lord + 9th house (except Saturn) or Sun, Moon, Mars or Jupiter or in quadrant or trine in or the 3rd house (except Saturn's sign) if Mars is the 9th Lord, anywhere, if 9th Saturn, then 9 Saturn + Sun or Jupiter or in his sign (except the 6th, 8th or 12th house).

[3] 1st house + 9 (except Saturn) or Sun, Moon, Mars or Jupiter or his or her sign.

[4] 1st Lord + 9 or 9 + 1st Lord or 1st Lord + Sun, Moon, Mars, or Jupiter or his or her sign, except in the 6th, 8th or 12th. Mars in any house.

[5] 1 + 3 (except Saturn) or Mars or Moon if not 3 or Mars or Moon + 1 (except Saturn).

If one has all the above five combinations, he is either multi-millionaire or millionaire but if there is a slight defect, he is man of thousands. For this, we shall observe some of the given birth charts.

Before observing the birth charts, the particulars given below are also to be noted.

If Saturn is related to the ascendant or lord of the ascendant, he (Saturn) controls the native and instead of the native becoming a multi-millionaire or millionaire, he is compelled to seek employment and in this way through the service, collects a few thousands. This combination is known as the combination of dependent and if no such combination is formed in a native's birth chart, it is called as combination of independent. Hence while observing the combinations of fortune, the combinations of independent life are also to be looked.

As the combinations of fortune are formed. so its break of fortune are alro caused. But at present we shall keep ourselves within limit of the proper subject and not involve ourselves in the break of the combinations, just concentrate our mind, whether the combinations of multi-millionaire are formed or not with the above five combinations. It is not necessary at present to observe how the natives have lost their wealth due to the break of fortune combination, but this will be read in the later chapter.

The exalted planet does not require any relation to its own house, i. e. if the lord of the 9th house is exalted in any birth chart, it is to be understood that the relation of the lord of the 9th house with the 9th house is caused.

Moreover, it is to be noted that if the lord of the 9th house or the planet related to that house is of 0 degree, i. e. he is complete 29 or 30 degrees, being ineffective, cannot form any combinations with any planet or house by conjunction, opposition or aspect.

2. A BREAK OF WEALTH : A BREAK OF FORTUNE

2. (a) A Break of wealth; Multi-millionaire, Millionaire, Kings, Queens, Dictators and Elected Ministers.

" We have sighted the Goddess of Wealth. i. e. we have got sufficient wealth, but will she ever stay in our house as long as we live or will she creep away through our doors and windows ? " Such type of questions are asked by many natives. In short the meaning of such questions are, we have got the combinations of wealth, but is there any break of that combination ? Hence the Astrologers have not only to study the combinations of wealth but also about their breaks.

The break of wealth are caused in two ways, first the destruction of wealth and secondly the native leaving the worldly affairs and becoming a saint, which is also called the combination of saint. We shall study here only the break of fortune.

A Break of wealth: Multi–millionairs, Millionaire, Kings, Queens, Dictators and Elected Ministers.

Please remember that Mars stops the break of fortune, i. e, if there are such breaks of fortune, Mars keeping himself independent, aspects the 1st house or is situated in the 1st house, the native does not experience any break of wealth.

The comb. of wealth is strong among the friendly planets and the break of Wealth becomes slight with them. But if the comb. of break of Wealth is done by the enemy planets, then the result of this break of Wealth turns out to be very disastrous one.

If the planets which form the combinations are debilitated, the combination of fortune is considered to be weak The lives of such native are full of ups and downs, they have to pass through many hopes and despairs and are unable to obtain the desired results.

Now we shall look at the birth charts of successful combinations of fortune and the break of fortune so that we can have the clear idea of it.

2. (b) A Break of Wealth : A Break of Fortune (in speculation.)

Now-a-days people are extremely attracted towards speculation markets. Sometimes people quickly become millionaires, but lives of many people are ruined in speculation markets. There is a proverb. "The more a gambler loses, the more he plays". Hence he tries to recover the loss and finally ruins himself. Only then he undertakes or concentrates his mind in another pursuit.

Now let us come to the point. We know that the speculation is the business of Saturn and Venus. If a combination of 1 + Saturn or Venus is formed in a native's birth chart, he is inclined towards speculetion and gamblings and according to their nature, Saturn and Venus bring despair and ruin etc. in his life. For all this the nature of Saturn or Venus is solely responsible.

Saturn signifies, hercules, gagantic capacity and machine. He is a huge producer as well as thick-headed, illtierate and gambler. He wishes to be millionaire without any efforts. Besides that he is ignorant, devilish and manifests death. We can have clear understanding by observing the fates and lives of desperate speculators, who moved according to the nature of Saturn or Venus.

Moreover, the powerful planets like the Sun, the Moon, Mars, and Jupiter are the enemies of Saturn. These powerful planets ruin the native who tries to act according to the nature of Saturn or Venus, i. e. the Sun, the Moon, Mars and Jupiter being the enemies of Saturn and Venus and victorious, a native who lives his life based on Saturn or Venus, specially experience such break of wealth.

Chapter Fifth : Tenth House

1. A NATIVE OF POWER, POSITION AND HONOUR

Who are called the natives of Power and Honour ? What is the limit of Power and Honour ?

Those persons who command, order or rule over the people and people always await their orders and act immediately according to their orders, are said to be the natives of Power and Honour, i. e. enjoying the Royal power.

A certain person who employs a servant and gets his work by ordering him is not said to be a man of Power and Honour. We shall call persons of Power and Honour only to those who at least command or work under whom there are twenty persons or more. Such type of persons are inclued in Kings, Queens, Dictators, Ministers, Chief Justices, Managers, Principals, Head Masters, Superintendents, Supervisors, Editors, Huge workshop owners and great business men.

A native of Power, Position and Honour : The comb. of Power, Position and Honour

[1] 10th house + 10th lord (except Saturn) or Sun, Moon, Mars or Jupiter or his or her sign.

[2] 10th Lord + 10th house (except Saturn) or Sun, Moon, Mars, or Jupiter or in quadrant, trine or 3rd house (except Saturn's sign) 10th Mars in any

house, if 10th Saturn then Saturn + Sun or Jupiter or in his sign (except in the 6th, 8th or 12th house].

[3] 1st house + 10 (except Saturn) or Sun, Moon, Mar or Jupiter or his or her sign.

[4] 1st Lord + 10 (except Saturn) (or 10 + 1st lord) or Sun, Moon, Mars or Jupiter or his or her sign except in the 6th, 8th, or 12th. Mars in any house. sign).

[5] 9th house + 9th lord (except Saturn) or Sun, Moon, Mars or Jupiter or his or her sign.

Those persons who have all the above combinations in his birth chart, are sure to be the natives of Power and Honour and if one combination is formed from first and second and one from third and fourth, then such natives become the natives of Power and Honour of lower grade.

A powerful fortune is also required for a native of Power and Honour, otherwise it would be just like a supervisor of hundred labourers with certain authority, getting a slight higher pay than those labourers. Hence the combination of Power and Honour do require the combinations of fortune.

We shall now observe the horoscopes of those natives in whom all these five cobinations are found.

Before observing the horoscopes, the particulars given below should be kept in mind.

If Saturn is related to asc. or lord of the asc., such natives become dependent and have to serve. They also enjoy the power and honour, but it should be noted that the power and honour, of independent persons are more valuable than those of dependent ones.

Besides considering the combinations of Power and Honour, we have to consider the cancellation of these combinations. But at present we shall keep ourselves in limit of the subject and not involve ourselves in the cause of breaks. Let us concentrate whether a native is able to attain the power or not and then later on we shall study the break of Power and honour.

The exalted planet does not require the relation of its own house or its significating house. If the lord of the 10th house is exalted, It is to be understood that its relation with the 10 house is caused. As well as exalted malefic planet is not considered as defective one. Moreover the lord of the 10 house or a planet related to the 10th house is of 29 or 30 degrees, being ineffective, cannot give any result as well as cannot form any combination by conjunction, opposition or aspect with the 10 house.

3. THE BREAK OF POWER, POSITION AND HONOUR

As the combinatious of power are formed in the birth charts of some natives, so their breaks are also sometimes caused. Such natives witness ups and downs in their lives.

According to the above stated principles, those persons in whose birth charts the break of power is caused, they experience break of power, position and honour. Such natives experience the break of power due to treacheries or because of undertaking wrong enterprise in business or due to other reasons.

When a millionaire becomes poor, he experiences not only the break of fortune but also the break of power, position and honour because he will have no servants to carry out his orders.

The break of Power, Position or Honour

[1] 10th house + Saturn or his sign or malefic or lord of the 10th house is in 6th, 8th or 12 house (without the relation of any planet) or is of * or debilitated.

[2] 1st house + Saturn of his sign or malefic (except 1st house + Sun, Moon, Mars or Jupiter) or lord of the 1st house in 6th, 8th or 12th house or is of * or debilitated.

Please remember that Mars stops the break of position and honour, i. e. if the break of power has been caused according to the above principles but if Mars being independent, aspects the 1st house or is situated in the 1st house, the native does not axpericnce any break of power.

The combination of power is strong among friendly planets and the break of power becomes slight with them. But if the combination of power is formed by enemy planets, then the result of this combination of power is weak and the break of power turns out to be very disasterous.

5. THE FATHERLY HAPPINESS AND ITS TIME

Every native is keen and anxious to know his happiness of father; because when a native loses his fatherly happiness in his child-hood, he is considered to be an unfortunate one and people pity him.

Looking to the condition of the 10th house, its lord and the Sun, significator of the 10th house, (The Sun is father) the time of fatherly happiness can be ascertained.

The combinations of Fatherly happiness.

[1] 10th house + 10 (except Venus or Saturn) or Sun, Moon, Mercury or Jupiter or his or her sign.

[2] 10th Lord 10th house (except Venus or Saturn) or Sun, Moon, Mercury or Jupiter or his or her sign.

[6] Sun + Saturn or Venus or his sign or malefic or in 6th, 8th or 12th or * or debilitated.

Chapter Sixth : Fourth House

1. THE HAPPINESS OF HOUSE AND VEHICLE

We have learnt the importance of 1st, 5th and the 9th house. Besides that the 4th house is also of great importance. Those persons who are fortunate to have the happiness of house and vehicle, are definitely related to the 9th house and if the 4th house is weak, there arises some suspecions regarding the 9th house, hence minute observation of the 4th house is necessary.

The combs. of House

[1] 4th house + 4 (except Saturn) or Sun, Moon, Mars, Jupiter or his or her sign.

[2] Lord of the 4th house + 4 (except Saturn) or Sun, Moon, Mars or Jupiter or in quadrant, trine or 3rd house (except Saturn's sign). If Mars is the lord of the 4th house, then in any house. If Saturn is the lord of the 4th house, then Saturn + Mercury or Moon or in his or her sign. (except 6th, 8th or 12th house.

[4] Lord of the 1st house + 4 or 4 + 1st Lord (except Saturn) or 1st lord + Sun, Moon, Mars, or Jupiter or his or her sign except in 6th, 8th or 12th. Mars in any house.)

[5] 9th house + 9 (except Saturn) or Sun, Moon, Mars or Jupiter or his or her sign.

If there are all the above five combinations in one's birth chart, the native obtains a higher standard of happiness of house and vehicle and if there is one combination from the first and second and one combination from third and fourth, then the native obtains an ordinary standard of happiness of house and vehicle.

To obtain the higher standard of happiness of house and vehicle the fortune must be sound, otherwise one who gets the happiness of house and if the condition of that house is poor or merely a hut, then such hoppiness of house has no meaning. Hence for the higher standard of happiness of house, the conmbinations of fortune are also required.

The earth is round which was formerly to be imagined, can to day be experienced and seen with our own naked eyes.

Every human being, by nature has a special quest and desire to travel round the world to achieve certain practical experiences and doing so, many had met obstecles and suffered. Such examples can be read in history.

A question can be put, "Why a human being is born in this world ?" For an argument one would say, to manifest God or to worship Him, but going through the history pages a man comes as an unit, born to create something in this world. Billions of people were born and have died in this world and each had played its part well to add new ideas in creation and development. Some have built huge 108 storied building, some bridges, some love memorial like Taj Mahal, some beautiful temples and some even discovering the most useful madicine like Penicillin. The earth, separated part from the Sun, was once, merely a burning globe but to day it is entirely changed. Many huge steamers moves in the ocean. Many huge and beautiful cities have been erected on the barren land. Who are the creators of such novelties ?

When a child is born, he knows his part to be played in this world. Moreover, Nature has made him more curious and he makes constant efforts to find an opportunity to add something in the creation of world. These efforts are quite personal one. Some earning millions of rupees build schools in their memory and pass away. Some build a beautiful houses on hill-tops and die leaving behind their creations.

Hence what part is played by Astrology in the human being's existence and his progress, is now only left to be observed.

Human being always desires to leave behind him his creation and wishes that it should be unparrelled and the most powerful one. Hence in order to create he knows that he requires a higher standard of knowledge. Whatever surprising and fascinating creation he sees, he intends to have in his own land and has a sharp desire to leave behind his memory forever in this world.

For this, one requires foreign travels and their experiences. Many educated as well as youngsters ask the Astrologers, "I have a strong desire to travel in foreign countries, will I be able to do so ?" Ordinary Astrologers can hardly answer this question carrectly.

The questions which were hardly asked to the Astrologers, now pour in abundance and one of them is that of foreign travel.

According to the above reasons, we shall observe how the combinations of foreign travel are formed in a birth chart. Before this we shall observe certain principles of astrology.

The 3rd house in a birth chart is considered to be house of adventure and foreign travel. Mars is the significator of that house. The Moon is also a traveller. Hence if the condition of the 3rd house, or its lord and of Mars is sound in any birth chart, then the native gets power of adventure and foreign travel. But that does not mean that he wishes to undertake such attempts but his mind is solely resronsible fot this. If the 1st house and 3rd house are related to each other, then the curiosity for a foreign travel arises in the native mind. Hence the relation of the 3rd house, its lord or the significator Mars with the ascendant by conjunction or opposition is quite necessary, so if there are two of the following combinations in one's birth chart, then he travels successfully.

Foreign Travel

(1) 3+3 or Mars or Moon or his or her sign.

(2) 1+3 or Mars or Moon. (or 3 or Mars or Moon+1)

Now we shall observe few horoscopes of the natives who have already travelled in forein countries and see how its combinations are formed.

4. THE BREAK OF FOREIGN TRAVEL.

In certain birth charts the combinations of foreign travels are not formed, hence the native is not able to travel abroad while in certain birth charts the combinations of foreign travel can be seen, but the native does not travel. The reason for this is that the break of foreign travel has been caused in the native's birth chart. Hence as we look for the combinations of foreign travel its breaks should also be observed. If such breaks are left aside without being checked, the native will engross himself in happines of foreign travel, but later on if the native is not able to go to foreign countries, he will be disheartened

The break of Foreign Travel.

The foreign travels are caused in two ways. First, there may not be any combination of foreign travel and secondly there may be the combinations, but it might have been cancelled by 3 or Mars + Saturn or malefic and 1 + Saturn or malefic.

7. BROTHERS AND SISTERS

It is a deep desire of a human being to know the happiness of how many brothers and sisters. If a native have two to three daughters and when the daughters grow up, they always desire to have at least one brother. Some of them even perform religious observances for having brothers. But if God has not given them any brothers, they are worried as to who would help them in their unhappiness and critical circumstances.

Before learning how many brothers and sisters a native has, the native has to think over the limitation of brotherly and sisterly happiness.

The death of any brother or sister before seven is not considered as a brotherly or sisterly happiness.

If the total is of three brothers, then it could be said that the native has two brothers. Hence according to this rule, the following chart indicates how many brothers and sisters a native will have.

The Brothers and Sisters

	Leo S. D.	Cancer S. D.	Aries Scorpio S. D.	Taurus Libra S. D.	Gemini Virgo S. D.	Saggit. Pisces S. D.	Capr. Aqua. S. D.
Sun.	1 + 0	0 + 0	1 + 0	0 + 0	0 + 0	1 + 0	0 + 0
Moon.	0 + 1	0 + 5	0 + 1	0 + 3	0 + 0	0 + 5	0 + 0
Mars.	1 + 0	0 + 1	1 + 0	0 + 0	0 + 0	1 + 0	0 + 0
Mercury	1 + 0	0 + 0	1 + 0	0 + 3	0 + 0	0 + 0	0 + 3
Jupiter	1 + 0	0 + 0	1 + 0	0 + 0	0 + 0	5 + 0	0 + 0
Venus.	0 + 1	0 + 3	0 + 1	0 + 3	0 + 3	0 + 5	0 + 3
Saturn	0 + 0	0 + 0	0 + 0	0 + 0	0 + 0	0 + 0	0 + 0

We can know the total of brothers and sisters from the 3rd house, its lord and Mars, the significator of the 3rd house.

If the Sun or Mars is related to the 3rd house or to the lord of the 3rd house by conjunction, opposition or aspect, each planet gives only one brother or a sister. Mars or the Sun being aware of the difficulties of the excessive brothers and sisters, keeps control over the number.

Saturn objects the birth of a brother i. e. he is malefic for the brother and not for the sisters.

Chapter Eighth : Seventh House

1. MALE OR FEMALE

The astrologers must know how to find out whether the given horoscope is of a male or a female. This is considered to be quite a tough job. Hence the astrologers, when preparing a birth chart, in order to ascertain whether the birth chart is of a male or a female, adjust the Navamansa to odd (Male) or even (female) even by changing the time of birth and this trick enables them to know immediately whether the native is male or female. This technique impresses the people greatly, but the astrologers themselves know their weakness quite well.

Now let us come to the point.

The Sun, Mars and Jupiter indicate male gender Saturn, Venus and Moon indicate female gender. An independent Mercury indicates male gender. Mercury with Saturn or Venus indicates female gender and with the Sun, Mars and Jupiter indicater male gender.

It is to be noted that the planets of male sign i. e. the Sun, Mars and Jupiter are more powerful and victorious than the planets of female sign. (except the Moon) It is also to be noted that the planets which aspects the house or a planet is more powerful.

The Moon is loved and honoured by every planet. Hence other planets allow her to act according to her desire. if there is combination of 7+ Moon the native is female even if therc are other comoination of male sex. In the same way the signs ruled by the planets, the Sun, Mars and Jupiter i. e. 5, 1, 8, 9 and 12 are considered to be male signs and 4, 2, **7**, 10 and 11 as female signs. Gemini sign is to be understood as male while Virgo as female.

4. BLESSED LOVE AND THE PAIN OF LOVE

[Happy and Unhappy married life]

(Only for Indians)

Usually happy or unhappy marriage is found out by referring to the table of marriage and the position of Mars in birth charts of the male and female. Following these principles, a man and a woman marry, but after sometime, they have disputes, quarrels, disharmony and pain of love in married life. Hence the question arises where the actual mistake is done? On the whole the science of astrology is complete but the knowledge of human beings is incomplete. It is necessary to cast a search light on their mistakes and investigate their defects.

For the solution of this day to day question, strictly adhering myself to the principles of astrology, I started a deep study and observations. Consequently certain important principles were sorted out.

Every astrologer knows that without a horoscope, the prediction based only on the Moon placed in certain sign, can never be correct. Applying the same principle, predictions given regarding marriage, based only on the Moon can never be correct. For instance, a certain man named Mr. X is a millionaire while another person with the same name is struggling for existence ! A woman enjoys the full married love from her marriage up to her death while another with the same name is a widow !

Moreover the prediction given regarding the blessed love when the Moon is malefic amounts to ridiculing the science of a strology.

According to the principles of astrology, the blessed love–happy married life can be ascertained from the 7th house of a birth chart, its Lord and Venus, the significator. Not only these principles are disregarded in applying for both the above methods, but they are also rejected.

According to the chart of friendship, Mars has no enmity with Venus, the significator of the 7th house, so it is as good as breaking the principles of astrology to say that Mars is malefic for the 7th house.

Mars in Sanskrit means' beneficial or welfare. This name is given because of his characteristics. But according to present wrong method Mars is spoken as an evil planet which is against his characteristics. This is no better then breaking the principles of astrology.

Saturn is the significator of 6, 8, and 12th houses, significator of diseases, loss, debt, interest and death. In short he is the significator of death. Moreover he is impotent, loveless and without life partner. Hence the action of astrologers in placing such planet (Saturn), against Mars and expecting a fruitful result of blessed married love is entirely unscientific.

Moreover the malefic planets in the birth chart, which are considered to bring miseries and sorrows are not taken into account anywhere. The present astrologers leave aside such important fact while considering the suitability of two persons for marriage.

If lord of the 7th house is in 6, 8 or 12th house, or Venus, the significator of the 7th house is in 6, 8 or 12th house or the malefic of the birth chart is related to the 7th house or 7th Lord, or Venus, its significator by conjunction, opposition or aspect or 7th Lord is of * or debilitated are major factors which indicate unhappy married life. If proper attention is not given to such combinations the result turns out to be drastic and the natives are made to suffer pain of love.

If the major factors of unhappiness are not found in birth charts of a couple, they pass a happy married life even if the table of marriage based only on sign of the Moon does not adjust. On the other hand even if the table of marriage based only on the sign of the Moon does adjust with Mars still the married life passes unhappily and sorrowfully.

Now observe the following birth charts. There are numerous such birth charts in our collection but due to the shortage of space and keeping under the limit of the subject, only few birth charts are given here as examples.

Married according to the adjustment of the table of marriage (based on only the sign of the Moon) but the wife took divorce !

	Asc.	Sun	Moon	Mars	Mer.	Jup.	Venus	Sat.	Rahu

Wife	4	11	7	9	11	12	9	8	2

Wife	7	1	7	5	1	5	2*	10	11

Married according to the adjustment of the table of marriage (based on only the sign of the Moon) but the wife does not go to the husband !

	Asc.	Sun	Moon	Mars	Mer.	Jup.	Venus	Sat	Rahu

Wife	5	7	1	8	8	6	8*	10	11

The table of marriage (not based on the sign of the Moon) still the native married and achieved blessed married love !

Husband	4	4	11	7	4	5	3	10	1
Wife	3	6	4	2	7	11	5	12	9

Here, could the happiness of blessed married love be said to be due to Mars ? Here Mars is benefic in case of husband while malefic in case of wife.

Now we shall study thoroughly, how a native with which combinations enjoys his married life, based on the principles of astrology.

5. BLESSED MARRIED LOVE : HAPPINESS OF HUSBAND AND WIFE.

Before obtaining the thorough knowledge about blessed married love, it becomes quite necessary to know its meaning first.

Blessed married love means–blessed love of husband and wife. Both should be of good character, agreeable, loving each other, sharing together happiness and sorrows, feeling perplexed and uneasy when one of them is out, loving and caring for children with all the possibility and avoiding all disputes and quarrels. Blessed love means a love of Romeo and Juliet, each one eveready to die for the other.

The Moon is a lover, Romeo and Juliet, passionate but virtuous.

Venus is also a lover, but his love is mean, of lower standard as he is sensual, lustful and of loose character.

Mars is courageous, victorious, fearless and full of self–confidence with go–ahead spirit. Hence the combination of 1 + Mars indicates love marriage; the combination of 1 + Saturn or Venus indicates intercaste –marriage. In case of combination of 1 + Sun or Jupiter, the marriage takes place with full mutual understanding and co–operation of the parents.

6. PAIN OF LOVE : UNHAPPINESS OF HUSBAND AND WIFE.

Every human being desires and dreams to live a better and prosperous life. But sometimes all his dreams are ruined and shattered. One would hardly find a man who is not anxious to live an ideal, happy and blessed married life.

There are five types of pain of love.

(a) No marriage takes place at the suitable age or are not able to find a proper life parter in proper time. Such natives are called, 'Natives of late marriage'.

(b) While certain natives are successful in getting a life partner but their married life is not happy due to certain reasons such as difference of opinion, the husband is debaucherous, drunkard, hot tempered, quarrelsome, weak, staying at distant place for business or service, unable to give or take divorce or the life partner is ignorant of married love or the wife does not give co-operation or go near him or vice versa. Such natives are called as 'Natives experiencing pain of love in married life.'

(c) Certain natives do marry, but an early death of the life partner causes widowhood or pain of love.

(d) There are certain natives who are not able to marry in their youth but marry late i e. after the age of 40 with great difficulties. Such natives are called 'natives deprived of married love'.

(e) While there are certain natives who never marry in their life due to one reason or the another and are not able to get the married love. Either the husband is impotent or the wife gets and impotent husband. Such natives are called, 'Natives of impossibility of married love'.

7. PAIN OF LOVE : NATIVES COMMITTING DEBAUCHERY

The human life is entirely based on the influence of the planets. He leads his life by the influence or position of the planets in his horoscope. The entire future i. e. the Decree of Fate, is written, in his horoscope by the will of God. Hence whatever evil acts are done by the native, the astrologer does not feel happy or sorrowful, but he remaining impartial, sticks himself to the principles of astrology.

The Moon is the symbol of passion. If asc. or lord of the asc. is related to the Moon by conjunction or opposition, the natives become passionate. Such natives are fond of sexual pleasure. They cannot keep control over their mind. They are lustful.

Same is the case with Venus. He is also passionate and sensual. Hence the relation of Venus with the asc. or lord of the asc., makes the natives sensual and passionate.

Mars is commander-in-chief and courageous one, but being separated from the life partner or the lover, is without character and debaucherous.

Even though a native may be passionate but if he has no courage he will hasitate to go on the path of debauchery. Natives who go on the wrong path, requires the combination of 1 + Mars.

Moreover, in a horoscope, if Mars is not related to the 7th house or its Lord, the native is kept away from such thoughts. Hence the combination of 7 + Mars makes a man debaucherous.

Saturn is the man of street, foot path dweller, desperate i. e. he is without life partner, impotent or the habit of masturbation. Hence with the combination of 1 + Moon or Venus in a native's birth chart and if there are combinations of 1 + Saturn and 7 + Saturn instead of 7 + Mars the native practices masturbation and ruins his health, mind etc. and in the end becomes impotent.

Now we shall pause here to think, why does a native move astray on the path of debauchery ? Does he or she like it ? Does not his or her conscience bite ?

The main reason for this is the ignorance of life partner's married love affairs. When a person does not get staisfaction of his wish from his life partner, he remains unsatisfied and struggles outside to fulfil his desire of married love, i. e. he tries to move towards' debauchery. This proves that before one marries perfect knowledge of satisfying the life partner is necessary. Lack of knowledge in married love affairs, ruins the lives of the couple.

Here another question may arise, how to understand the standard of imagination of individual's married love ?

For this it becomes necessary to know the strength of the 7th house. If a wife gets 5% more than the husband, they live a happy married life with success. We request our readers to read our book 'Birth Chart, its combinations and the strength of the House in percentage'.

8. FREE FROM PAIN OF LOVE : DIVOREE OR REMARRIAGE.

It is the nature of all the human beings to bring an end to difficulties. Sometimes when his own calculations go wrong, he wakes from the sleep and puts an earnest efforts to reach back the same goal of prosperity. The same applies to the pain of love.

Human beings marry to obtain blessed married love and life. But due to one reason or the other, there may arise unexpected events to cause all the miseries and pain of love. The final step taken to overcome such pain, is a divorce or remarriage. In brief, divorce or remarriage brings an end of pain of love and brings hopes of a blessed married love.

To get release from the pain of love means to get support from the victorious planets, like the Sun, the Moon, Mars and Jupiter. Mars and the Moon are the lover of freedom, whereas the Sun brightens the human life.

The difficulties and obstacles created in married love by Mercury and Saturn · are put to an end by the help of the Sun, the Moon, Mars and Jupiter. But this pain of love can be ended only if the benefic planets are not in the 3rd, 6th, 10th or 11th sign. Mars is not effected by the malefic effect of the signs Capricorn, or Aquarius. Mars of this sign can avoid the pain of love.

The pain of love is created from the 1st and the 7th houses. Hence the relation of these benefic planets with the 7th house, is quite necessary to avoid such pain of love.

The Sun, the Moon and Mars can remove the Malefic effect of Saturn and the Moon can remove the malefic effect of Mercury powerfully because they are victorious and enemies of Saturn and Mercury.

CHILDREN

The study of astrology throws a flood of light on the question of children. "How many sons and daughters will I have ?" is the question asked by many natives to the astrologers. Those who have not got children are considered to be unfortunate in the society.

Before learning how many sons and daughters a native will have, one has to think over the limitation of the happiness of sons and daughters.

The death of a son or a daughter before 7 years should not be considered as giving happiness to the native.

The combinations of Sons and Daughters :

	Leo	Cancer	Aries	Taurus	Gemini	Sagitt.	Capri.
			Scorpio	Libra	Virgo	Pisces	Aqua.
	S. D.	S. D.	S. D.	S. D.	S. D.	S. D.	S. D.

†Mercury Combust. ‡Jupiter aspecting the 5th house gives the above sons.

*Saturn as the 5th Lord gives the above daughters.

We can know the total for sons and daughters from the 5th house, its Lord and Jupiter, the significator of the 5th house.

If the Sun or Mars is related to the 5th house or 5th Lord by conjunction, opposition or aspect, each planet gives only one son or one daughter. Mars or the Sun being aware of the difficulties of exessive children keeps the control over the number.

Saturn objects for the birth of a son i. e. he is malefic for the son and not for the daughter. Herein the relation of Saturn with the 5th house or lord of the 5th house is considered to be malefic for sons, but not for daughters.

Moreover before answering the question how many sons and daughters a native will have, one should know whether the native is married or not? Does he stay with his life partner or not? Without union one cannot have children.

By observing the birth chart of father, the happiness of sons and daughters should be considered. If a native desires to have more then two or three wives, the total of sons and daughters by the observing the birth chart of the present wife would not tally and hence the doubt is raised in the native's mind with the impression that the wife would die etc. Hence the consideration of sons and daughters is only possible through the observation of the father's birth chart. The name of the father is always written after the christian name of a son or a daughter, hence the observation of the father's birth chart is more correct.

6. Children : Natives having no issues.

There are certain natives who thoroughly enjoy the happiness of married life, still they are without children. The reason for this is that either the man lacks in sperm or wife has no ovum. This is quite easy to understand in this scientific age. Now-a-days the major steps are taken to stop the excessive births. While there are certain natives who are naturally operated ! This is also to be understood in the case of women.

Hence we can have a clear understanding that the "combination of no issue" is all due to defects in the 7th house.

Chapter Thirteen : Sixth House

1. GETTING VICTORY OVER ENEMIES IN WAR, COURT CASES OR B~~I~~USINESS COMPETITION.

The sixth house governs enemies. At present we shall only think about enemies. If there is a combination of 1+6 or 1 + Saturn and 6 + Saturn in the native's birth chart, the native has to face enemy, war, court, competition (business).

Enemies means war, victory, terror or fear. These words have the relation with the 6th house. If we think of war and victory, the meaning of all the above words will be clearified in these two words.

Victory means control over enemies. Where is the need of such victory ? Is it in battle-field, sport-fields, courts or business competition ? We shall think here about four different types of victory and defeats.

Mars is victorious while Saturn is defeated one. If Mars is related with the 1st and the 6th houses in the birth chart, the native generally achieves victory whereas if Saturn is related with the 1st and the 6th houses, the native experiences failures and defeats.

The Sun, the Moon, Mars and Jupiter are on the side of Gods and are victorious while Mercury, Venus and Saturn are on the side of devils and are defeated one. Jupiter does not believe in war and enmity.

Now we shall observe the birth charts of great warriors of the world, like Roosevelt, Stalin, Churchill and also of those great people, like Mahatma Gandhi, Jawaharlal Nehru, Morarji Desai or Rajendra Babu, who fought against the powerful British Empire without carring any weapon in their hands and also observe the birth charts of sportsman and of those who fought in court's cases with victory.

The combinations of enemies, war, court cases or business competition.

(1) 1 + 6 (except Jupiter) or Saturn or his sign.

The combinations of victory :

(2) 1st house + Sun, Moon, Mars (this planet should not be malefic) or the asc. of his or her sign.

(3) 1st Lord + Sun, Moon, Mars or Jupiter (this planet should not be malefic) or his or her sign (the Lord of this sign should not be an enemy to the 1st Lord).

(4) 6th house + Sun, Moon or Mars (this planet should not be malefic) or his or her sign (excellent if 6th house + Mars).

(5) 6th Lord + Sun, Moon or Mars (this planet should not be malefic) or in his or her sign or the 6th Lord * or debilitated or in enemy's house (except in 6th, 8th or 12th house).

(6) Saturn + Sun, Moon or Mars or Saturn * or debilitated or in enemy's house i. e. in the sign Aries, Cancer, Leo or Scorpio (except in the 6th, 8th or 12th house).

If one gets all the above six combinations of victory, achieves victory and if less than six, he obtains less success in proportion, i. e. it all depends upon the number of combination one gets in his birth chart. In addition to these five combinations, the combination of 6 + Mars is excellent because Mars related to the 6th house acts as the significator of the 6th house also.

Chapter Fourteenth : Eighth House

1. HUMAN-BEING AND LONGEVITY : A NATURAL DEATH

The consideration of a native's longevity is a very difficult task. One can hardly get success in it. Even then we shall here have a special study of this subject. Since the birth upto death, a man fights against death. Hence there is tussle between the 1st Lord and the Lords of 6th, 8th, and 12th houses. Herein one who is powerful, naturally wins.

Saturn is devil, cruel, thick-headed and the significator of death. He is the significator of 6th, 8th and 12th houses. He is known as 'Lord of Death' in astrology. So the consideration of longevity is taken from Saturn, the malefics and 6th, 8th and 12th houses.

The consideration of longevity is also taken from the 1st house, 1st Lord and the Sun, the significator of 1st house. If the position of 1st house, its Lord and the Sun is sound in a birth chart, the native enjoys long life, with the condition that there should be no interference of the malefic planet or Saturn or 6, 8 or 12th houses.

The planet who is the lord of 6th, 8th or 12th house and not the lord of the trine or quadrant, is considered as 'malefic'; which can be followed from the following asc. table. Saturn should be considered as malefic in all the birth charts.

Asc.	Aries	Taurus	Gemini	Cancer	Leo	Virgo
Malfic	Mer.	Venus*	Mars	Mer.	Moon	Mars
Asc.	Libra	Scorpio	Sagitt.	Capri.	Aqua.	Pisces
Malefic	Venus *	Mercury	Venus, Moon.	Sun	Moon	Venus

The natural friendship of the planets is also useful in considering longevity. For instance, Saturn, Venus and Mercury work in one group and Mars, the Moon, the Sun and Jupiter work in another group. Both the groups behave with each other as enemies, while Mars, the Sun, the Moon and Jupiter fight for the benefit of the human life.

The child's longevity should not be considered as soon as it is born, because for the period of two years, there remains the malefic effect of Saturn, the significator of death. It is a wise step to consider the longevity of a child when it completes two years.

Sometimes one combination of short life also causes child's death; while there are certain children having one or two combinations of short life, still they cross two years. The consideration of longevity of such children is only advisable for the astrologers, when they cross two years. Even parents think this consideration as the fair one.

---

* In the asc. Taurus and Libra, the 1st, 6th & 8th Lord being Venus, here Jupiter is replaced by Venus.

The combinations of longevity :

(1) 1st house + Sun, Moon, Mars or Jupiter (this planet should be benefic, not the lord of the 8th house and an enemy to the lst Lord) or the asc. of his or her sign.

(2) 1st Lord + Sun, Moon, Mars or Jupiter (this planet should be benefic, not the lord of the 8th house and an enemy to the 1st Lord) or in the sign Leo or 1+1st Lord or the 1st Lord in the sign Aries or Scorpio.

(3) Sun+Moon, Mars or Jupiter (this planet should be benefic, not the lord of the 8th house) or in the sign Leo or in the sign Aries or Scorpio or in 1, 3, 4, 7, 9 or 10th house.

(4) Saturn + Sun Moon, Mars or Jupiter (this planet should be benefic, not the lord of the 8th house) or * or debilitated or in the sign Aries, Cancer, Leo or Scorpio (except in 6th, 8th or 12th house).

(5) Malefic + Sun, Moon, Mars or Jupiter (this planet should be benefic, not the lord of the 8th house) or * or debilitated.

Malefic combinations :

(6) 1st house + malefic or 8th Lord or Saturn or his sign or * or an enemy planet in the asc.

(7) 1st Lord + malefic or 8th Lord or Saturn or his sign or * or debilitated or in 6th, 8th or 12th house or 1st Lord in enemy's house.

(8) Sun + malefic or Saturn or his sign or * or debilitated or in 6th, 8th or 12th house or in the sign of Saturn or Venus.

(9) Saturn + 8th Lord or malefic or in the sign of Saturn or in 6th, 8th or 12th house.

(10) Malefic + 8th Lord or Saturn or his sign or in 6th, 8th or 12th house.

Instructions :

1. If the asc. is related to the 1st Lord, it does not require the help of any other benefic combination, i. e. by considering it as a benefic combination, should be given 10 years.

2. Whenever there are two malefics, each should be given 5 years.

3. From the above combinations, if the 7th and the 10th combinations are formed in a birth chart,

the child dies early, and in the 7th combination, if the 1st Lord is aspected one-sided by Saturn, the powerful combination of death is formed. In the same way, if the malefic is aspected by Saturn and if it is related to asc. or the 1st Lord, the same result is given.

4. In the asc. Virgo and Pisces, the Sun should not only be taken as malefic because the Sun is the friend of these two lords, Mercury and Jupiter, whereas in the asc. Capricorn, the Sun is taken as malefic for he is the enemy of the 1st Lord, Saturn.

5. If the 1st Lord aspects the asc. then he does not require the help of any other benefic combination. He is considered as powerful (except Saturn), should be given 10 years.

If the planet is in its own significating house, it forgets all about the enmity. For instant, the Moon is the enemy of Mercury but if the Moon is situated in her 4th Significating house, then the Moon should not be considered as enemy of Mercury. The same rule applies with rest of the planets.

Death is caused in two ways–Natural and unnatural

The unnatural death is caused by :– (1) death by treachery. (2) death by poison, (3) death by accident, (4) death by suicide and (5) death by jail, execution or transportation. (Jail or transportation is also one sort of death as the victim is shifted far from the universe by the Government. Consequently, the relatives considered this as one sort of death of him).

Chapter Fifteenth

HUMAN-BEING, ASTROLOGY AND FUTURE

We have completed the study of future of the human-beings which is accomodated in the Twelve Houses of a birth chart such as, health, culture, truthfulness, Worship and devotion to God, fortune, wealth, fame, position, power, honour, poet, art, happiness, marriage, blessed love, pain of love, divorce, debauchery, peace of mind, adventure, enemies, children, death, diseases etc.

In short we have completely studied, with the help of ' A Book of Astrological Correct Predictions ', how to find the correct answers of all the important questions of future, arising in the human life.

Finally, dealing with certain principles of astrology, we shall finish this book.

One would hardly find a person in this world who is not anxious to know his or her future, with the result that many volumes regarding this science have been written. The satisfaction given by the science of astrology to enable to know the future of any person, stands top most.

But to-day people are gradually avoiding astrology and losing their faith in it, because some of the astrologers, who are entirely blank in knowledge of the correct perdictions, own personal interest, selfishness, resort to spiritualism and all sorts of other tricks, cause prejudice amongst the people.

For an observation of any birth chart given in this book, refer to the index, the chapters and the combinations given for each particular. Besides that always think of Time (period) of the planets. While observing any birth chart, please note that patience, concentration of mind and full confidence without hesitation or fear are required for the correct predictions.

If possible, do not ask more then three questions to any client. These questions are allowed to verify whether the birth chart is correct or faulty.

Before observing the birth chart, the primary steps taken are to see and check whether the birth chart is correct or not. Sometimes certain persons get their birth charts prepared by giving wrong time and have a wrong impression that the birth chart is entirely correct as some of the events predicted proves true. But with much experience, it is found that such belief is entirely wrong.

Do not predict the life of any child before it is three years old. If these principles are observed by all the astrologers, it would serve a great purpose to the science of astrology and the people would stop ridiculing this great science.

There may arise a question, how far and upto what percent the astrology proves its correctness in predicting the human life, i. e. upto what strength of the percentage it should be considered ?

100% ? Not at all. In that case people would forget God and start the worsphip of astrologers. In every temple and church one would find the images of asrtologers and nothing else.

The astrologer cannot compete with Almighty and his writings, but with his grace and blessings, wishes to pridict one's future. But the astrologer with his earnest efforts and ability can achieve only 30% of the correct results. If we can achieve say 30% of the correct results out of hundred events arising in the human life, we should be contented and proud.

It is quite natural that one would not be able to memorise all the combinations given in this book, still for the convenience of our readers, we have prepared a handy book, 'Your birth chart and its planetary combinations of every event of human life', for quick references of the combinations of all the events of human life. The price is only Rs. 2/–. Postage extra.

Lastly, a thorough and minute study of this book is advised and the collection of Birth Charts must be done as mentioned in this book. The daily observation of these collected Birth Charts will greatly help you to increase your knowledge of Astrology.
